IMPORTED & NATIVE BULBS

MADE IN U.S.A.

The WAYSIDE GARDENS CO.
Mentor, Ohio

*America's Greatest Producers
of Hardy Perennials*

Frankly

This is an Afterthought

There is an over-production in some sorts of Holland Tulip bulbs.

It means some surprisingly fine things are available at remarkable prices.

Furthermore, the popular sorts are priced so low, you can afford to buy in hundreds instead of by the dozen.

The truth of the matter is, all these prices are lower than before the war.

It just does look, as if it would be many a long day before such an opportunity would happen again.

As we were about ready to mail out this catalog, we woke up to the fact that we hadn't stressed this opportunity anything like the way it merits.

It doesn't make any difference whether you have any room to plant them in your flower garden, or not. Plant them in goodly numbers in your vegetable garden, or any available spot. For once have enough Tulips so you can cut them by the armful, as you have always wanted to.

And here's a suggestion: If everybody is going to be awake to this opportunity, like you are, then what more likely, than that the surplus be taken up, and prices start climbing? Which is the reason we must have your order for these specials at once or not a day later than by July 15th.

Tear out this sheet and use the other side for your order sheet.

These special varieties are listed with prices for your convenience.

Use regular catalog order blank for other bulbs you may want.

REG. U. S. PAT. OFF.

THE WAYSIDE GARDENS CO.
MENTOR, OHIO

Why

It is Advisable to Order Your Bulbs Before July 15th

THE demand for better and choice varieties of bulbs has tremendously increased not only in America but also in countries such as Australia, New Zealand, Canada, Japan and India. Nations such as Russia are again big factors in the bulb market. Added to that, the increased demand for better stock from the older European nations has brought about sharp bidding for the better sorts and the best quality.

In this catalog are listed a number of choice varieties of which there are not many bulbs in existence. It is therefore a sound policy to order early and be sure of being amongst the first served. We do not ask you to send money ahead nor do we offer big discounts for the use of your money. Bulbs are paid for after you receive them. We have an earnest desire to supply the best bulbs obtainable and fill orders in full with the **true varieties ordered**, early ordering enables us to do all this. By helping us you help yourself. We are writing you this upon request of our European house, whose representative stressed the point of ordering early. Therefore send your order in before the 15th of July. A copy will be mailed to Holland, arriving there about August first; shortly after this date the first shipments of bulbs are leaving for America and as always the first shipments contain the biggest and best bulbs. Your order will be packed in Holland by experts and will then be sent to us with many others, arriving at our warehouse usually early in October. Immediately upon arrival we open the boxes and examine individual orders and forward the bulbs to you at once. After looking them over and when you are thoroughly satisfied with the quality of the stock you may send us your cheque. If you have no account with us we would appreciate references with your order. The prices given in this catalog include all foreign import charges but do not include express charges from our nursery to your home. Local express charges on bulbs are very small and need not be considered.

Please take advantage of the special import prices quoted in this catalog and mail in your order before July 15th—not later!

*All bulbs offered in this catalog are obtainable until July 15th. After that date no other varieties except those preceded by a star *.*

Bulbs for Rock Gardens and Naturalizing

THE use of bulbs and the manner in which bulbs are used has greatly improved during the past two or three years. A short time ago there were only very few people who ever thought of using bulbs in the rock garden, which is such a popular European custom. Today, however, hundreds of our customers who own rock gardens, or farms, or a small piece of woodland, are buying Tulip species (Wild Tulips), small Fritillarias, Wild Crocus species, both Autumn and Spring-flowering sorts; Erythroniums, etc., for their rock gardens. On their farm meadows they are naturalizing Narcissi, Blue Bells, Grape Hyacinths and Crocuses, and from photographs received we know they are obtaining wonderfully good results and a vast amount of pleasure at very small expense. May we suggest that in going through this book you pay special attention to some of the following bulbs so well suited for planting under shrubs or in bad, shady places in your garden if you are not the happy owner of a farm or wood lot. Here they are: Brodiaeas, Chionodoxa, Camassia, Colchicum, Eranthis, Fritillarias, Snowdrops, Muscari, Mertensia, Scillas, Ornithogalum. All of these are excellently suited for the rock garden or for naturalizing. To be more definite let us take the Wild Crocus. On page 8, for instance, you will find two very good collections of Wild Crocuses; one collection consists of varieties that bloom in the Fall during the months of September and October, while the other collection consists of early Spring-flowering varieties, blooming wherever possible in February or March. Do not confuse these Wild Crocuses with the well known Dutch varieties. These we do not like to plant in rock gardens, but suggest their use for edging or planting in the lawn or meadow only.

Crocus imperati, zonatus, speciosus, tommasinianus, etc., are great favorites with everyone familiar with rock gardening. Crocus speciosus, sativus and zonatus, for instance, if planted between low-growing varieties of Sedum or Thyme, create a striking effect in October when flowers in rock gardens are scarce.

Tulip species, such as Tulipa persica, sylvestris, clusiana, are a delight to watch when they put in their appearance early in April.

Brodiaeas, Erythroniums or Dog's-tooth Violets, in variety, are natives of this country, and we have made provision so that we may be able to take care of the growing demand for these bulbs. There are innumerable varieties of semi-bulbous plants, such as Trilliums, Corydalis, Mertensias, etc., that we do not list in our bulb catalog; these can be found in our hardy plant catalog which we will gladly send you upon request.

Bulbs for the hardy border consist of a great number of varieties. We do not believe the hardy plant border is complete without a liberal planting of Darwin, Cottage and Breeder Tulips, Narcissi and other bulbs. The most practical way to go about planting these bulbs in the border is to plant them under dwarf, shallow-rooting herbaceous plants. For instance, all varieties of Thyme and dwarf Sedums are excellent planted right over Tulips. There are also several varieties of Veronicas, such as Veronica rupestris, amethystina, Royal Blue, True Blue, and several more, which will live in perfect harmony with bulbs.

Amaryllis

	Each	10 Bulbs	100 Bulbs
* Hippeastrum, Giant American Hybrid. There is nothing that will give the amateur greater pleasure for the window garden than these giant-flowering Amaryllis that are so easily managed. The strain we offer is the finest that has ever been produced in this country, strong bulbs throwing vigorous stems with from four to six gigantic blooms of the most perfect form, ranging in color from pure white grounds with varied markings of rose, red and crimson to the richest self colors as scarlet, crimson, bright red, cherry, and almost maroon. We can supply them in mixture only. Delivery from November until April. Large, strong bulbs	\$0.75	\$7.50	\$60.00
* Halli (<i>Lycoris squamigera</i>). This bulb produces, in early Spring, attractive green foliage, which grows until July when it ripens and disappears, and one not familiar with its habits would think it had died. About a month later, however, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing an umbel of large and beautiful, lily-shaped flowers 3 to 4 inches across and from 8 to 12 in number, of a delicate lilac-pink shaded with clear blue. As the bulb is perfectly hardy without any protection, it can be planted either in the Fall or Spring, but we consider Fall the best time as the bulbs will have a chance to get established before flowering time. Cover the crown about 4 inches. Very useful for the border or among shrubbery	1.00	10.00	

Anemone

(Half Hardy—Must Have Protection)

	10 Bulbs	100 Bulbs
* St. Brigid. Finest Irish strain, showing a great many lovely shadings..	\$1.35	\$12.00
* The Caen. A beautiful variation of colors, shading from light blue to brilliant scarlet. Recommendable for forcing in a cool temperature. Large size roots	1.35	12.00

Brodiaeas

(Hardy)

These plants have a small bulb, producing grassy leaves near the ground, and very slender, but stiff, naked stems bearing a head of waxy flowers of great lasting quality. All are pretty. Their culture is the same as for Narcissi, and just as easy as for that flower. They are easily naturalized in almost any soil. Plant them about 3 inches deep, and leave them alone. They are especially happy under oak and deciduous trees, in crevices in rocks, or in rough, gritty soils.

	10 Bulbs	100 Bulbs
* Coccinea (Floral Firecracker). The stems rise to 2 feet, while the flowers are a vivid crimson tipped with pea-green. The resemblance to a bunch of firecrackers catches the eye at once. A group of these bulbs in a mass of ferns or light-foliaged plants is striking, and they do very well potted. Crop looks doubtful, give second choice	\$0.75	\$6.00
* Crocea. Has light yellow flowers in umbels	1.15	9.00
* Grandiflora. Has a few large, glossy purple flowers of much beauty and great lasting qualities. The bulbs can be naturalized in any clay soil, especially if moist70	4.50
* Hendersoni. Bears many flowers in an umbel. The ground color is light with a deep purple band down the center of each petal	1.15	9.00
* Lactea. Has a close umbel of milky white flowers60	4.00
* Laxa. Is known as Blue Milla, and has a many-flowered umbel of fine blue flowers. It is one of the best for naturalizing70	5.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

The New Wayside Gardens Strain of Giant Hybrid Amaryllis

Calla

(Tender—Indoor Only)

These like a stiff, clayey soil. Bulbs should be set with the crown, or top, protruding just above the surface. When in growing condition, warm water given several times during the week will hasten the flowering period and increase the number of blooms. Plant but one in a pot. We call especial attention to the Yellow Calla, which is one of the grandest varieties in cultivation, and most valuable for house or conservatory decoration. See the description below. Plant Callas indoors in the Fall of the year; outdoors in April.

	Each	10 Bulbs	100 Bulbs
* Yellow Calla Lily, Elliottiana. A grand novelty—one that should be planted extensively. The deep golden yellow flowers are truly magnificent and produced in abundance. The green foliage is spotted white, which adds to its beauty	\$0.40	\$4.00	\$30.00

Calochortus

(MARIPOSA OR BUTTERFLY TULIPS) (Hardy)

	10 Bulbs	100 Bulbs
Until one has seen a good collection of these plants, he has no idea how much Nature can do in the variation of one flower. All Mariposas are forms of Calochortus, yet there are several strains, all with the slender grace of stem belonging to the species. Cup-shaped flowers, one to many on a stem, wonderfully marked with eyes and dots and pencilings in rich colors, are characteristics. Yet each strain carries out the plan on a color scheme of its own, and then can be compared only with the orchids in wonderful variability of beauty. "Mariposa" is simply the Spanish word for butterfly, and is applied to these Tulips because the eyes and markings of the flowers are so much like those on a butterfly's wings. The bulbs are small and should be planted about 2½ inches deep and covered during Winter	\$0.70	\$5.00

Camassia (Hardy)

Perfectly hardy bulbous plants that thrive well in any situation and are excellent for naturalizing.

	10 Bulbs	100 Bulbs
* Esculenta. A purple form, rich in color. Grows 2 feet high. Very showy in masses	\$0.70	\$5.00
* Leichtlini (Sky-blue). Grows 3 feet high, with as many as one hundred flowers, of the finest form, star-shaped and about 1½ inches across, flowering in long succession	1.25	10.00
* Leichtlini alba. White form of the above	1.25	10.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Chionodoxa (Hardy)

	10 Bulbs	100 Bulbs
* Luciliae (Glory of the Snow). A mass planting forms one of the most sumptuous displays of floral beauty, a mass of blue and white, intense and brilliant. They bloom at the time of the Crocuses, producing dwarf flower spikes, bearing from 12 to 15 flowers of a sky-blue with a pure white heart, creating a lovely effect. They should be planted in the Fall, 3 inches deep, about 18 bulbs to a square foot, in a sunny location or in half shade and in places where they can remain undisturbed for a number of years. The flowers will cross with one another and will seed themselves, forming natural colonies	\$0.50	\$4.00
* Sardensis. This is the earlier of the two varieties to come into bloom, and the first real blue flower of another year. This is a rich, blue self-color. The remarks made for the variety Luciliae apply to Sardensis50	4.00

Camassia.

Calochortus.

Crocus

WILD SPECIES AND DUTCH VARIETIES

Besides the Dutch Crocuses there are certain species that bloom very much earlier in the year, often before the snow has gone. The flowers of these wild sorts are smaller than those of the Dutch kinds, but they are as vigorous and free as the others. Given a sunny position in the rock garden, or a sheltered position in grass where the sun may encourage them freely, they will surprise you by their hardy appearance in the face of cold and storms.

Crocus Imperati, pale lilac with a buff jacket, often flowers in late February, and is closely followed by **Crocus Sieberi**, a fuller, purer mauve sort; it has as a companion the deep rich yellow **Crocus Susianus**, which is even more attractive in the bud stage with its dark, rich, brown flowers on the exterior of the segments. Once planted they will take care of themselves for many years. Then comes **Crocus Tommasinianus**, an exquisite vasselike form, in color varying from a pale mauve to quite a rich purple. This variation is one of its great attractions. These all increase as freely as do the Dutch varieties.

WILD AUTUMN-FLOWERING SPECIES (October-Flowering)

For Rock Garden or Hardy Border.

	10 Bulbs	100 Bulbs	1000 Bulbs
* Sativus (The Saffron Crocus). Habitat Italy to Kurdistan; large flowers, purplish lilac, feathered violet, with showy orange stigmata, slightly scented. Flowering freely when established. \$0.75		\$6.00	\$57.00
* Speciosus . Bright violet-blue, prettily veined, having orange-red anthers, and light yellow throat, large, handsome and showy; one of the best for naturalizing in grass and massing in borders or in rock work	.75	6.00	57.00
Speciosus Artabir . A beautiful variety with large pale blue flowers with dark veinings	1.15	10.00	
* Zonatus . Rose-lilac, yellow center and orange zone; ethereal in lovely coloring	.75	6.00	57.00

WILD SPRING-FLOWERING SPECIES

For Rock Garden or Hardy Border.

* Biflorus (Scotch Crocus). White with lilac stripes	1.00	7.50	68.00
* Imperati . Fine shade of mauve; exterior of the three outside segments a rich fawn	1.00	7.50	68.00
* Sieberi . A gem; lavender flowers with bright orange stigmata.	.70	4.50	42.00
* Susianus . Most attractive, deep, rich yellow with dark, rich brown flames on exterior of segments	.70	4.50	42.00
* Tommasinianus . Flower varies from a pale mauve to a rich purple	.60	4.00	37.00
* Versicolor . Strong grower; flowers are white, striped purple.	.60	4.00	37.00

DUTCH VARIETIES

Supplied in Largest Size Bulbs Only.

* Baron von Brunow . Large bluish mauve	.40	3.00	27.00
Julia Culp . Large purple-blue; late. Beautiful	.40	3.00	27.00
Kathleen Parlow . Pure white; large flower; fine substance	.40	4.50	40.00
* King of the Whites . Large, white	.50	4.00	35.00
Madame Melba . Pale mauve, darker stripes	.40	3.00	27.00
* Maximilian . Very large, pure porcelain blue	.60	4.50	40.00
* Mont Blanc . Pure white	.40	3.00	27.00
* Purpurea grandiflora . Very large; purple-blue	.60	4.50	40.00
* Mammoth Yellow	.60	4.50	40.00
* Sir Walter Scott . White, striped lilac	.40	3.00	27.00
* Named Varieties Mixed . The above in mixture	.40	2.75	25.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Crocus Versicolor.

Crocus Speciosus.

Colchicum - Meadow Saffron (Hardy)

A group of Autumn-flowering bulbs with large, crocus-like blossoms appearing after the foliage has died down. They are strongly recommended for planting in grass, where their bold delightfully chequered flowers are seen to the best advantage, and producing a succession of beautiful crocus-like flowers, literally carpeting the ground. Among the most beautiful of woodland flowers and are equally at home in lawn or rock garden, where they keep up a succession of flowers from September till November; i. e., at a season when outdoor flowers are scarce.

	Each	10 Bulbs	100 Bulbs
*Autumnale. Commonly called the Autumn Crocus; very free-flowering; of easy culture	\$0.30	\$2.65	\$24.00
Autumnale album. Pure white, increasing fast, making good clumps; free flowering45	3.75	35.00
Autumnale major. A large growing variety with massive flowers of rosy purple40	3.25	30.00
Bornmulleri. Fine cup-shaped long-tubed flowers of rosy lilac coloring; one of the finest species; early flowering60	5.25	50.00
Speciosum. Deep rose-purple; very large, stout and fine40	3.25	30.00
Speciosum album. White; very large	2.00	17.50	150.00

Eranthis

(Hardy—Give Slight Protection)

	10 Bulbs	100 Bulbs
*Hyemalis (Winter Aconite). These produce at about the same time that the Crocuses are in bloom, little yellow flowers like Buttercups about three inches above the ground, with settings of fine green, frilled-like collars which never seem to mind the worst of weather conditions. Will thrive under trees where few other plants can hold their own. They seed themselves freely and colonies from self-sown seed are soon formed. Plant firmly two inches deep, in shade or half shade, about eighteen bulbs to a square foot	\$27.50 per 1000..	\$0.40 \$3.00

Erythronium - Dog's-tooth Violet (Hardy)

These are charming woodland plants, producing in early April, small, lily-like flowers of which the colors run in delicate tints of white, pink, cream, bright yellow and rose. They thrive in shaded corners or crevices of rock work. Their beauty is enhanced by their richly mottled leaves. They like a light, rather moist, but well drained soil. Plant the corms about three inches deep.

	10 Bulbs	100 Bulbs
*Californicum. Cream colored, often with 4 or 5 flowers on the stem. Leaves richly mottled. A large colony is a beautiful sight	\$0.70	\$4.50
*Citrinum. A native of Southwestern Oregon; is rather stouter in habit than the last; flowers creamy at the outside, citron center70	4.50
*Grandiflorum robustum. A most distinct species, usually found in the mountains of the West. The leaves are not mottled, but a plain green. The flowers are of the brightest buttercup yellow70	5.50
*Hendersoni. Like Californicum, but the flowers are a lovely light purple, with the centers a deep maroon, almost black. Most striking ..	.70	4.50
*Hartwegi. Perhaps the most lovely of all Erythroniums. With the stout habit of this group, it has exquisite rose-pink flowers. From the coastal region of Oregon	1.00	7.50
*Mixed Colors. Splendid for naturalizing and for rock garden in light shade	\$40.00 per 1000..	.60 4.25

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Erythronium—Mixed Varieties.

60c per 10; \$4.25 per 100; \$40.00 per 1000.

Eremurus - Foxtail Lily; Giant Asphodels

These astonishing plants are just beginning to find their way into American gardens. They come from India, Persia, and Central Africa, and are among the noblest of bulbous plants. A well grown clump of Eremuri may justly be regarded as an achievement to be proud of. The great flower stalk, eight feet tall and more, rises from a crowded tuft of long, narrow leaves, and is covered by a flower spike two or three feet long, composed of closely set, bell-shaped flowers, in colors of rose, yellow, white and coppery pink. When flowering is over, the foliage disappears entirely, but reappears very early in the Spring, when it is advisable to protect the young flower spike from late frosts. To fill the great bare space left when the plant goes to rest, Asters may be planted near it. In Winter a mulch of straw over the crown is a safeguard. These plants enjoy a rich soil, and a well drained, sunny situation. Plant about 5 to 6 inches deep.

	Each	10
Bungei (Aurantiacus). With citron-yellow flowers borne on spikes 3 to 4 feet high; very beautiful	\$3.00	\$30.00
Elwesianus . A variety of Robustus; very vigorous, enormous spikes thickly set with pink flowers	4.00	40.00
Elwesianus albus . Pure white flowers on superb spikes	5.00	50.00
Himalaicus . A noble plant, spikes up to eight feet high, one-third covered with fine white flowers; a clump of this in flower is a sight which once seen is not soon forgotten	3.00	30.00
Himrod . A stately hybrid between Himalaicus and Robustus, differing from Robustus only in its paler silvery rose coloring; a splendid plant.	3.00	30.00
*Robustus . Tall, strong, rosy pink flowers; one of the finest; will grow to a height of 10 feet when fully established	4.00	40.00
Shelford . Beautiful hybrid, spikes seven to eight feet high, inflorescence three feet long, flowers arranged closely together as in Bungei. Color a coppery yellow; the exterior of the flowers is tinted a ruddy bronze. A noble and richly colored garden plant, much admired wherever seen.	6.00	60.00
Tubergeni . A splendid hybrid between Himalaicus and Bungei with grand spikes up to six feet in height with beautiful pale yellow flowers at the end of May. The earliest of the yellow flowering varieties	6.00	60.00
Warei . A grand hybrid of tall stature, the actual inflorescence a yard long, studded with myriads of fine coppery pink flowers shot with bronze. A rare plant, very richly colored, flowering just before the Bungei group	8.00	80.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Eranthis.

Eremurus.

Freesia

(Tender—Indoor Only)

This is one of the most beautiful of all Cape bulbs, possessing a peculiar grace of form, and its fragrance is most delightful, one pot of a dozen bulbs being sufficient to perfume a whole house.

When planting Freesia bulbs in pots or pans, they may be spaced 2 inches apart and must be staked as they grow; if planted in benches they may be set 4 inches in rows 2 inches apart.

The soil should be a light sandy loam; old soil is the best in which some other crop has been grown during the previous season. This may be enriched with well-decayed stable or sheep manure. The best time to plant is September or early October, if planted earlier they will come up unevenly for the reason that the bulbs will not have had sufficient rest. For late flowering, plant in November.

To produce the largest and finest flowers they should be grown **cool**; a day temperature of 60 degrees and night temperature of 45 to 50 degrees suits them best; they like plenty of water at all times and especially so if they are subjected to high temperature.

	10 Bulbs	100 Bulbs
* Carrie Budau. Lavender-pink; large	\$0.75	\$6.00
* General Pershing. Extra good; large open flowers of a pinkish lavender with yellow lip, suffused bronze, produced on stems often 3 feet tall, with several side laterals; strong grower; liberal producer. Selected bulbs75	6.00
* June Michelsen. Large, deep rose-pink, yellow blotch75	6.00
* Mendota. Extra fine, bright golden yellow, produced liberally on tall, stiff stems. A splendid cut flower; very early; best yellow75	6.00
* Purity. A magnificent, snowy white; of very large size and great length of stem. A truss bearing from 8 to 10 buds, of which six are often open at one time. Mammoth bulbs50	4.00
* Splendens. Very good violet shade; good grower with large flowers; highly recommended to grow in quantity75	6.00

* Rainbow Mixture of Freesias

The new colored Freesias which have been introduced lately have been selected from thousands of seedlings. Some of the seedlings not named are as fine as the named varieties. It is these better seedlings we offer. If you should live in that part of America where there is little or no frost during the Winter, plant some of these bulbs outside and you will be surprised at the wonderful cut flowers these mixed bulbs produce. They are also excellent for indoor culture in pots.

Per twenty-five, \$1.30.

Per hundred, \$5.00.

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Freesias, Rainbow Mixture.

\$1.30 per 25; \$5.00 per 100.

Fritillaria - Mission Bells

NATIVE VARIETIES

(Hardy)

Fritillarias are bulbous plants of the woodlands. The stems are leafy and most graceful, with many pendent, bell-like flowers. One species found in Southern California is called "Mission Bells," while in other places local species are called Brown or Chocolate Lilies.

In the West there are two types: The true Mission Bells do better in a clay soil in full sun. The woodland Fritillarias like woodland soils and conditions, and in cultivation some shade and a free soil. They have proved hardy as far north as Wisconsin. This is hardly a matter for surprise, as *F. lanceolata* is a southern form of *F. camtschaticensis* which is found in Alaska and crosses into Siberia.

	10 Bulbs	100 Bulbs
* Lanceolata. Grows from 1½ to 3 feet high, with few to many flowers. They are green and brown, mottled prettily	\$1.15	\$9.00
* Recurva. Is as beautiful, and much resembles a lily. In size and habit like <i>F. lanceolata</i> with orange-scarlet flowers	1.45	12.00
* Pudica. Of still a different habit. A low plant with a single clear bright yellow bell. It is from the arid regions of the Great Basin. Likes sandy or loose soils	1.15	9.00

EUROPEAN VARIETIES

Imperialis (Crown Imperial). One of the most characteristic plants of old-fashioned gardens. It is the most robust of all the species. The flowers are borne in umbels on stout stems, 3 to 4 feet high.

Aurora. Orange	4.00	25.00
Double Yellow	10.00	75.00
Maximus. Red; very large	6.00	40.00
Single Yellow. Light yellow	6.00	40.00
* Single Red	3.00	20.00

***Meleagris** (Guinea Hen Flower or Checkered Lily). These produce in early April dwarf, pendent, bell-shaped flowers in various shades of color, curiously checkered, striped and splashed. They are very effective in colonies, requiring a somewhat dry situation. Invaluable for mass planting in the meadows and for naturalizing

Meleagris alba. This is the pure white form of this interesting type. Plant four inches deep

Galanthus - Snowdrops

(Hardy)

These are particularly effective under hedges, under cedar trees and in thin woodland. They are the first to open in the Spring and are very lovely. They dislike being moved and should be left alone to naturalize themselves. Plant two inches deep; mulch in Winter with straw, hay, leaves or well-decayed manure. The single-flowering Snowdrops, if they are left alone, soon take to producing double flowers. The differences and variations in the varieties of Snowdrops are so comparatively small that it does not seem worth while to offer them in variety.

	10 Bulbs	100 Bulbs
* Galanthus nivalis. Old-fashioned variety	\$45.00 per 1000	\$0.70 5.00
* Galanthus Elwesi. This is a larger type than the old-fashioned <i>Galanthus nivalis</i> , but does not naturalize quite as freely. It is, however, a very much better kind for the warmer parts of the United States, and does well in Florida and California	\$45.00 per 1000..	.70 5.00

Hyacinths

Select Exhibition Size

Bulbs Measure 19 Centimeters or Over and are the Largest Obtainable

These are varieties selected for their large sized spikes, elegance of form, and beauty and richness of color. The bulbs are of mammoth size—the cream of the crop—and naturally command advanced prices. We offer this grade only in limited quantities and request early orders for them. Exhibition Hyacinth bulbs are unsurpassed for growing in pots but are not suitable for outdoor work; they are to grow in Hyacinth glasses; may be flowered in any large vase, if this is preferred to pot culture.

PRICE, ALL BULBS AS LISTED BELOW: \$2.75 per 10; \$25.00 per 100.

RED AND DEEP ROSE

Garibaldi. Brilliant vermilion-red; good early forcing variety.

Gertrude. Deep rose-pink; compact spikes on good stems. A very popular forcing variety; also used for bedding.

La Victoire. Shiny carmine-rose, with large, well filled spikes. A splendid bedder.

Marconi. Bright deep rose; short, broad trusses, borne on stiff stems. A good forcer but particularly fine outdoors.

LIGHT ROSE AND PINK

Pink Perfection. Light carmine-rose, with large, compact spikes. One of the best varieties in its class for pots.

General De Wet. Lively light pink with a lighter center; large trusses with good sized bells. Fine for forcing or bedding.

Lady Derby. Beautiful, clear rose-pink, with large, compact trusses. Early and fine for both forcing and bedding.

Queen of the Pinks. A very lovely pink; trusses broad and large, with good sized bells and strong stems. The best late forcing variety and good for all purposes.

LIGHT BLUE AND LILAC

Electra. Light, silvery blue with immense, well filled spikes. Early and one of the finest light blue Hyacinths for forcing.

Perle Brilliant. Light blue, tinged lavender; splendid spikes with large, substantial bells. A fine pot Hyacinth and good for bedding.

Queen of the Blues. Clear, light porcelain blue; a strong growing variety with large, well formed trusses. One of the best of its color, particularly for bedding.

PURE WHITE

Arentine Arendsen. One of the finest whites; long spikes with large, snowy white bells. Early, fine for forcing and a good bedder.

La Grandesse. Pure white with fine, compact spikes. The best late forcing variety and fine for bedding as well.

L'Innocence. This is the most satisfactory all-around pure white. Compact spikes with large bells. Does well indoors and out.

BLUE AND DARK BLUE

Dr. Lieber. Lavender-blue, shaded violet, the general effect being deep blue. Bears large, compact spikes and is fine for early forcing as well as bedding.

Grand Maitre. Deep blue with long, compact spikes of large bells, on strong stems. One of the most popular blues; fine for pots as well as bedding.

King of the Blues. Dark violet-blue; splendid large trusses. One of the best known blue Hyacinths. Good for late forcing and bedding.

Menelik. Very dark, almost purple; well formed trusses. A splendid bedder and good for forcing.

YELLOW

City of Haarlem. The finest of the yellows. Well formed trusses of orange-yellow bells. An excellent variety for forcing and bedding.

VIOLET

Sir Wm. Mansfield. A splendid truss of ruby-violet. The best of its kind.

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Exhibition Hyacinths, La Victoire.

\$2.75 per 10; \$25.00 per 100.

Named Single Bedding Hyacinths

We strongly recommend the use of Named Bedding Hyacinths for outdoor planting in preference to unnamed Hyacinths under color. The latter are made up of many varieties in mixture, which are not uniform in height, color, or time of blooming. When named bedding Hyacinths are planted, uniformity in color, height of plant and time of blooming are insured, and at a cost not much in excess of unnamed bedding Hyacinths.

First size or exhibition size bulbs are too costly for bedding and flowers are too heavy, falling over from their own weight.

ROSE AND RED SHADES

	10 Bulbs	100 Bulbs
General De Wet. Light pink, white center; large spike	\$2.00	\$18.00

--	------	-------

Miniature or Dutch Roman Hyacinths

These are the 3-year-old bulbs of the Dutch Hyacinths, easily forced and largely grown for Winter flowering. Can be forced in pots, pans, or grown in bowls and vases in Holland Fiber. They bloom later than the true French Roman Hyacinths but produce larger spikes. Five to six bulbs can be potted in a 6-inch pot. Treatment same as for Dutch Hyacinths. They are distinguished from the ordinary Dutch Hyacinths by a looser flower spike and small, neat bells. The colors are delightful and when planted in low pots or pans, one color to a pan, the effect is light and graceful, and no more charming decoration could be found.

***Grand Maitre.** Lavender-blue.
King of the Blues. Violet-blue.
***La Victoire.** Carmine-red.

***L'Innocence.** Pure white.
Queen of the Pinks. Rose-pink.
City of Haarlem. Yellow.

PRICE, ABOVE VARIETIES: \$1.25 per 10; \$12.00 per 100.

French Roman Hyacinths

French Roman Hyacinths are among the earliest bulbs to be had in flower. The bulbs arrive from France late in August, and, like all bulbs grown in the south of France, they may be had in flower from November all through the Winter months, if potted up in September and at intervals of every two weeks. They are much prized for pots or cutting on account of their graceful appearance and delicate fragrance. The bulbs are about the same size as the Miniature Dutch Hyacinths offered on this page, and may be planted six or seven to a 5- or 6-inch pot, or ten to twelve bulbs to an 8- or 9-inch bulb pan. The flowers are smaller than those of the Dutch Hyacinths, and are borne in great profusion, the larger bulbs frequently having three to five graceful spikes of bloom. Their ease of culture and earliness of bloom suggest their use. They are not hardy, and should not be planted outdoors.

Single Mixed Hyacinths

In Separate Colors for Mass Plantings.

For those who want a real flower at little cost, our Single Mixed Hyacinths are impossible to beat. Considering their price, these are really unusual bulbs, and while they should never be forced, you will find it pretty hard to stop their growth if you plant them outside. We anticipate a heavy demand for this size bulb this season.

Lilies for Autumn Planting

For Autumn Planting

Lily bulbs arrive in this country during the late Fall, early maturing varieties during September and October; late maturing kinds, as a rule, do not reach the United States until well in December, too late to plant that Fall successfully. We offer the early varieties in this list. The late varieties are offered in our Plant Catalog.

	Each	10	100
	Bulbs	Bulbs	Bulbs
* Batemanniae . Strong stems with five to ten flowers of a reddish orange color. July-August. 3 to 4 feet	\$0.40	\$3.75	\$35.00
* Canadense . Our dainty, beautiful native Lily. Graceful and charming flowers30	2.75	18.00
* Grayi . A native Lily with deep red flowers. One of the finest for planting in shady places. Small, rich red flowers, spotted maroon. July. 3 to 4 feet35	3.00	30.00
* Philadelphicum . A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. 3 feet. Large bulbs ..	.30	2.75	25.00
* Superbum . 3 to 4 feet. July. Flowers bright reddish orange, conspicuously spotted25	2.00	15.00
* Tenuifolium (Siberian Coral Lily). A most delicate and charming species. Growing from 1 to 2 feet high, it bears often from 1 to 12 or more nodding, rich scarlet flowers35	3.00	25.00
* Testaceum (Excelsum or Nankeen Lily). This is one of the finest of all Lilies. The color is difficult to describe, being a shading of dull apricot with orange-yellow anthers. A most graceful Lily and a good companion to <i>L. candidum</i> . June-July. 5 feet. Extra large flowering bulbs	2.00	19.00	180.00
* Tigrium flore pleno (The Double Tiger Lily). The only double Tiger Lily worth growing50	1.50	12.00
* Tigrium simplex (The well known Single Tiger Lily). Of easiest culture and worthy of general planting on account of stateliness50	1.50	12.00

For more complete list of hardy Lilies, see our **Hardy Plant Catalog**.

Lilium Candidum

(MADONNA LILY)

Choice Northern Grown. Arrive in August or September.

Maeterlinck refers to this loveliest of Lilies when he says: "The great white Lily, the old lord of the gardens, the only authentic prince among all the commonalty issuing from the kitchen-garden, the ditches, the copses, the pools and the moors, among the strangers come from none knows where, with his invariable six-petaled chalice of silver, whose nobility dates back to that of the gods themselves, the immemorial Lily raises his ancient sceptre, august, inviolate, which creates around it a zone of chastity, silence and light."

Be very careful that you plant the right type of this beautiful Lily in your garden. There is an early-flowering variety which is grown in the south of France. These should not be used in America; if planted in the garden, they are prone to disease and are unsatisfactory. In Europe this type is called *L. candidum speciosum*. This variety is only too often sold because they cost less.

The true type to use for the garden is the *L. candidum* from the north of France; is easily recognized by its white, fleshy scales, by those that know both types.

Plant in loam or sandy soil, in an open, fully exposed place, surrounding the bulb with sharp sand and placing it somewhat on its side. After it has become fully established leave it alone as it much resents disturbance at the roots. If necessary to transplant, do so as soon as the flower stems die down.

Lilium Tigrinum.

Lilium Candidum.

Lilium Regale or Myriophyllum

The Queen of Lilies

Growing anywhere under almost any condition, establishing itself without any trouble or effort on your part, it is in our mind the easiest and one of the most beautiful, and hardiest Lilies in cultivation. Lilium Regale is truly a royal Lily, worthy of a place in every garden. A vigorous grower with sturdy stems; 4 to 5 feet high, densely covered with long, lanceolate foliage. Center of flower flushed with yellow, shading to white at the outer edges; externally the flowers are streaked with brown, shaded through the almost translucent petals with a delightful pearly tint; the contrast between the rich color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. Thrives in any good, rich soil and is the easiest of all Lilies to grow. Stem-roots; plant Fall or early Spring, about 5 inches deep. July flowering. In order to bring this unusually handsome Lily into the hands of every flower lover and gardener we offer it at greatly reduced prices. (Our stock is the largest in cultivation in America).

*Mammoth Bulbs	7.00	60.00

Easter Lilies

(Tender—Indoor Only)

We offer two types of the Longiflorum Lily usually grown by the florist. Of the two types we recommend L. formosum as the best for private conservatory growing.

	Each	10 Bulbs	100 Bulbs
* Harrisi. These bulbs usually arrive from Bermuda in July. 7 to 9 inches in circumference	\$0.60	\$5.00	\$45.00
* Longiflorum formosum. We have contracted for and expect some of the following size to arrive about September first. 9 to 10 inches in circumference80	8.00	65.00

Lilium Regale or Myriophyllum.

Mertensia

(Hardy)

10 100

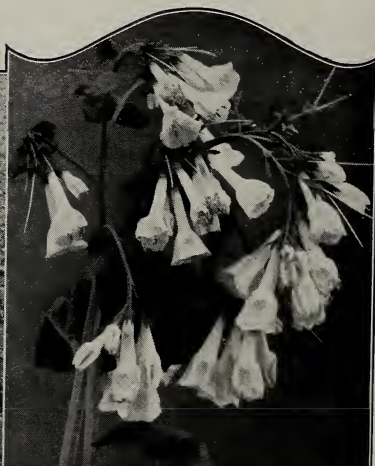

***Virginica** (Blue Bells). This is indispensable in the garden for color effect; flowers are porcelain blue turning pink with age. The plant grows from one to two feet high bearing a panicle of flowers about one inch long in short pendent clusters. It is splendid for the open border or for naturalizing along the woodland path, in the dell, along the brook or pond; it flowers from the time the Daffodils are in bloom, continuing while the May-flowering Tulips are at their best. We urge all garden lovers to use this delightful plant in quantities as it is permanent and so helpful to create beautiful pictures. Extra heavy roots for immediate effect\$2.00 \$18.00

Muscari - Grape Hyacinths (Hardy)

10 100 1000
Bulbs Bulbs Bulbs

***Botryoides coeruleum**. Bright blue, very free grower which naturalizes easily, flowering at the time of the Crocuses\$0.60 \$4.00 \$35.00
***Botryoides album**. This is the white form which is very pretty planted with the blue variety of this type75 6.00 50.00
***Heavenly Blue**. While there are several kinds of Muscari, we consider this variety the best for mass planting. Their flowers open just about the time that the Chionodoxas and Crocuses are going. They do very well in the wild garden and also in the grass if it is not too rank. They are nice under trees and along the borders where they may be left undisturbed40 3.50 30.00

40c per 10; \$3.50 per 100; \$30.00 per 1000.

Daffodils

Narcissi, or Daffodils, are one of the most popular of Spring-flowering bulbs. Blooming before the

Winter snows are quite forgotten, they bring to the garden its first display of color, spreading out their hoard of yellow beauty in response to the coaxing of

the April sun. From March until well into May the Daffodils are in bloom, and by a judicious selection of varieties the borders may be kept bright for over a month. Whether the great trumpets of the new monsters are handsomer than the dainty elegance of the small-crowned sorts must

be a question of individual taste, but there are no Daffodils without the charm of shape or color. In 1919 the Royal Horticultural Society of England adopted a revised classification of the Daffodils, which is followed in this list.

- 1—**TRUMPET DAFFODILS.** Trumpet or crown as long as or longer than the perianth segments.
 - Ajax Yellow.** Perianth and trumpet yellow.
 - Ajax Bicolor.** Perianth white, trumpet yellow.
 - Ajax White.** Perianth and trumpet white.
- 2—**INCOMPARABILIS DAFFODILS.** Cup or crown measuring from one-third to nearly equal the length of the perianth segments.
- 3—**BARRI DAFFODILS.** Cup or crown measuring less than one-third the length of the perianth segments.
- 4—**LEEDSI DAFFODILS.** Comprising all chalice-cupped and short-cupped Narcissi having white perianth, and cup or crown of white, cream or pale primrose.
- 5—**TRIANDRUS HYBRIDS.**
- 6—**CYCLAMINEUS AND THEIR HYBRIDS.**
- 7—**JONQUILS AND THEIR HYBRIDS.**
- 8—**TAZETTA AND THEIR HYBRIDS.**
 - Poetaz.** Hybrids between Poeticus and Polyanthus sorts.
- 9—**POETICUS DAFFODILS.** All with snowy white perianth and flattened yellow crown more or less deeply colored with scarlet or crimson.
- 10—**DOUBLE DAFFODILS.**

Narcissi - Daffodils

The varieties in this list have been selected with the idea of providing not only the very best standard kinds and the better known novelties, but also the newer and rarer productions, which we can confidently recommend as being the gems among the hundreds developed by foreign specialists.

The figure following the name indicates the relative time of flowering.

	10 Bulbs	100 Bulbs
Albatross (Barri). 4. Large, flat, white perianth; cup pale citron, with edge of bright madder-red and beautifully frilled brim; a large flower and a good garden variety. Height 20 inches\$1.55		\$13.00
*Alba Plena Odorata (Double White Poeticus). 4. Large, double, snowy white, sweet scented, gardenia-like blossoms; much prized for cutting. To obtain fine, handsome flowers this Narcissus should be planted early in a deep, cool, moist soil 1.10		9.00
*Autocrat (Incomparabilis). 3. Broad perianth of primrose-yellow, tending to reflex; aureolin yellow cup, expanded at mouth. A handsome, free-flowering variety for the border, and the best of its type for pots. Height 20 inches 1.80		16.00
Blood Orange (Barri). 3. Broad, overlapping perianth of creamy yellow; cup sunflower-yellow, very daintily frilled. Interesting color and a good grower. Height 16 inches 1.30		12.00
C. J. Backhouse (Incomparabilis). 2. Starry perianth, soft yellow, of medium size; long cup of orange-yellow suffused orange-red. A distinct and attractive variety which does well in shade; fine for naturalizing. Height 18 inches 1.85		16.00
Cleopatra (Yellow Trumpet). 3. Perianth broad and overlapping, of a clear primrose-yellow; long, bold trumpet, beautifully imbricated, of deep, rich yellow. Of refined character and the finest Yellow Trumpet of Emperor coloring. Height 18 inches 3.00		28.00
*Conspicuous (Barri). 4. Large, broad, spreading perianth of soft yellow; short yellow cup, edged bright orange-scarlet. One of the most useful of all Daffodils. Splendid for the border or naturalizing. Height 21 inches 1.25		10.00
*Elvira (Poetaz). 3. Perianth pure white, eye bright yellow. Three or four flowers of great substance on a stem. Fine for forcing. Height 20 inches 1.65		14.00
*Emperor (Yellow Trumpet). 3. Perianth deep primrose-yellow, broad at base; trumpet rich yellow. A large flower of remarkable substance; fine for borders or forcing. Height 20 inches 1.65		14.00
*Empress (Bicolor Trumpet). 3. Sulphur-white perianth, with rather narrow petals; trumpet rich chrome-yellow. A very useful Daffodil for the border. Height 18 inches 1.65		14.00
Evangeline (Leeds). 4. Broad, pure white perianth, with smooth, overlapping petals of remarkable substance; expanding cup of citron-yellow. A Daffodil of fine substance, and wonderful form. Height 18 inches 1.45		12.00
Firebrand (Barri). 4. Perianth creamy white, shaded soft yellow at base; cup fiery red, prettily fluted. This is one of the brightest of all Daffodils. Splendid for shaded borders. Height 17 inches 1.55		13.00
*Giant Princeps (Bicolor Trumpet). 3. Sulphur perianth and yellow trumpet; long and showy 1.50		12.00
*Glory of Leiden (Yellow Trumpet). 3. Trumpet yellow; perianth soft yellow; of largest size and always satisfactory 1.50		12.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

THE WAYSIDE GARDENS COMPANY, MENTOR, OHIO

NARCISSI—Continued.

	10 Bulbs	100 Bulbs
*Golden Spur (Yellow Trumpet). 1. Self colored a deep rich yellow. Perianth large and spreading; large trumpet with broad, open mouth. Splendid for early forcing. Height 17 inches	\$1.65	\$14.00
Homespun (Incomparabilis). 4. Perianth and crown bright yellow, with broad, flat, overlapping petals of great substance. A refined Daffodil of flawless form. Height 17 inches	1.80	16.00
Horace (Poeticus). 2. Pure white perianth, with overlapping round petals; large cup with rim of scarlet-red; one of the early varieties in this section. Height 16 inches	2.00	18.00
*King Alfred (Yellow Trumpet). 2. Perianth and trumpet chrome-yellow; broad perianth petals of great substance; trumpet of medium size, widely expanding, with brim rolled back and beautifully fluted. A flower of lasting quality. Height 20 inches	2.40	22.00
*Laurens Koster (Poetaz). 3. Very handsome variety; perianth white with deep yellow cup. The finest of the Poetaz and a splendid Narcissus	1.55	13.00
*Lucifer (Incomparabilis). 3. Perianth sulphur-white, with long, well rounded petals, starlike in effect; cup chrome-yellow edged bright orange. A showy flower for outdoors; it holds its color splendidly. Height 18 inches	1.45	12.00
*Madame de Graaff (White Trumpet). 4. Perianth pure white; trumpet soft primrose, passing into white; exquisitely rolled back at brim; large, beautifully formed flower of great substance. A splendid Daffodil for outdoor planting. Must be planted early to avoid decay of bulbs. Height 15 inches	2.25	20.00
*Mrs. Langtry (Leeds). 4. White perianth; cup pale primrose passing into white, with a narrow margin of lemon-yellow; a very free-flowering variety, and the very best of the older Leeds Narcissi. Height 16 inches	1.25	10.00
Olympia (Yellow Trumpet). 3. Perianth of deep primrose-yellow; huge, straight trumpet of slightly deeper color, frilled at brim; an enormous flower, splendid for the garden or pot culture. Height 15 inches.	3.00	27.00
*Ornatus (Poeticus). 4. Perianth pure white; cup margined bright crimson. A splendid variety for massing, and the best of the inexpensive sorts. Height 14 inches	1.25	10.00
Orange Cup (Poetaz). 3. Splendid variety; yellow perianth with orange cup	1.75	16.00
Orange Phoenix (Double Incomparabilis). 3. White, with reddish orange center; very double flower. Height 17 inches	1.80	17.00
*Princeps . (See Giant Princeps).		
*Poeticus . (See Recurvus).		
*Queen of the North (Leeds). 3. Broad, large perianth of glistening white and remarkable texture; cup soft primrose-yellow, with narrow rim of sulphur-white. A flower of the highest quality and very clear color. Height 18 inches	1.80	16.00
*Recurvus (Poeticus). 6. The old Pheasant's Eye. Perianth pure white, somewhat reflexing; cup margined deep scarlet; sweet scented. Fine for massing in borders or in grass. Height 15 inches	1.10	9.50
Red Beacon (Barri). 3. Broad perianth of great substance, ivory-white at the base; fluted and frilled cup of vivid orange-scarlet. A wonderfully striking flower because of its brilliant coloring. A good grower. Height 17 inches	3.00	25.00
*Bugulosus (Jonquil). 2. Self colored rich yellow; very fragrant; three or four flowers on a stem; the best form of the single Campernelle Jonquil. Fine for borders or naturalizing. Height 17 inches75	6.00
*Bugulosus plenus (Double Jonquil). 2. Clear golden yellow. Fine for outdoors or pots. Height 13 inches75	6.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Poeticus Recurvedus—Pheasant's Eye.

\$1.10 per 10; \$9.50 per 100.

NARCISSI—Continued.

	10 Bulbs	100 Bulbs
*Seagull (Barri). 3. Broad perianth of the purest white; cup pale lemon-yellow, usually with tiny edge of light orange; an exquisitely beautiful flower; one of the loveliest of its class. Fine for outdoors. Height 17 inches	\$1.70	\$14.00
Silver Phoenix; syn., Sulphur Phoenix (Double Incomparabilis). 3. Large, creamy white flower, with sulphur-yellow center. Height 18 inches	1.85	16.00
*Sir Watkin (Incomparabilis). 2. Perianth primrose-yellow; large and well formed yellow cup; tinged deep yellow. A giant among the medium-crowned Daffodils. Height 21 inches	1.65	14.00
Spring Glory (Bicolor Trumpet). 1. Clear white perianth, with long petals of fine form; long trumpet of deep chrome-yellow, reflexing at the brim. A very large flower of fine character. Height 16 inches ..	2.00	18.00
St. Olaf (Leeds). 3. Very broad, well rounded perianth, of unusually clear white; wide crown, of soft creamy yellow, with sulphur margin. A Daffodil of very interesting color and distinct form. Height 16 inches	1.75	15.00
Tresserve (Yellow Trumpet). 3. Perianth primrose-yellow, slightly hooded; very large trumpet of rich canary-yellow, very broad at the mouth and deeply flanged. Height 17 inches	2.75	25.00
*Vanille (Bicolor Trumpet). 2. Creamy white perianth, with narrow, pointed petals; bright yellow trumpet well expanded at the brim. This variety is noteworthy because it has a strong vanilla-like perfume; splendid for permanent planting in borders. Height 16 inches.	1.55	14.00
Van Sion; syn., Telamonius plenus (Double Trumpet). 3. Golden yellow; the most popular Double Trumpet Daffodil for forcing. Outdoors, Van Sions are likely to become very green the second year after planting, there being something in our soil or climate which affects the color of this Daffodil. Height 13 inches	1.65	14.00
Van Waveren's Giant (Bicolor Trumpet). 1. Broad primrose perianth; bright yellow trumpet, with very large, open mouth, flanged at brim. A huge flower of vigorous habit and very showy character. Height 17 inches	4.25	40.00
*Victoria (Bicolor Trumpet). 3. Broad, creamy white perianth, with closely lapping petals; clear, rich yellow trumpet, very large and frilled at mouth. A very beautiful Daffodil; good for forcing. Height 16 inches	1.65	14.00
Weardale Perfection (Bicolor Trumpet). 3. Solid perianth of milk-white, with broad, overlapping petals; long, bold trumpet of soft primrose-yellow, well fluted at the mouth. A good grower and free bloomer; satisfactory in every way. Height 22 inches	2.75	25.00
*White Lady (Leeds). 3. Broad white perianth of perfect form; small cup of pale canary, beautifully crinkled; free blooming, and well suited to outdoor planting; superb when used as a cut flower. Height 20 inches	1.45	12.00
Whitewell (Incomparabilis). 2. Flat creamy white perianth with very broad overlapping petals; large open cup of deep chrome-yellow. A large flower of sturdy growth and substance. Height 18 inches	2.25	20.00
Will Scarlett (Incomparabilis). 5. Creamy white perianth; widely expanded cup of brilliant orange-scarlet, elegantly frilled. A noteworthy variety, owing to the dazzling scarlet of the cup; a very good grower. Height 18 inches	2.00	18.00
*Mixed Daffodils. A splendid mixture of many varieties and types, all suitable for naturalizing, is offered to induce liberal plantings of these lovely flowers. This offer is only for orders for one hundred bulbs or more	\$75.00 per 1000..	8.00
No other varieties except those preceded by a star (*) are carried in stock in the Autumn.		

Narcissus, Paper White

American grown bulbs have proven after careful testing to flower as well as imported bulbs, but they must not be started before December first. Planted in pebbles and water and grown fairly cool in full light they will produce splendid flowers three weeks after planting. **Use largest bulbs only!**

\$1.00 per 10.

\$9.00 per 100.

Ornithogalum (Hardy)

10 100
Bulbs Bulbs

***Umbellatum** (Star of Bethlehem). A low-growing bulb. Foliage resembles that of the Muscari Heavenly Blue. Flowers are white, starlike, with green midrib, which makes them look like stars, and are borne in clusters of from 10 to 12 on one stem. Excellent for rock gardens or wild plantings. Flowers early in May. 6 to 8 inches high. \$1.10 \$10.00

Ranunculus (Must Have Protection)

Double flowers on strong, straight stems 8 to 12 inches long. The colors range in a large diversified assortment. Excellent for forcing.

10 100
Bulbs Bulbs

***Double French Mixed.** Strong roots \$1.00 \$6.00

Scillas - Squills (Hardy)

These flourish in sun as well as in shade under trees. They are not particular about the soil in which they grow. They are ideal for the wild garden but they are not to be despised in the border, especially if they are left alone for two or three years without being disturbed in any way. They are splendid in the rock garden. Produce drooping bell-like flowers.

10 100 1000
Bulbs Bulbs Bulbs

***Sibirica Blue** (Siberian Squill). Earliest to flower, connecting the flowering of the Crocuses with the Narcissi. Fine for naturalizing, producing drooping, bell-like flowers on stems 3 to 4 inches high. Succeed well in the rock garden. Color bright blue. Plant 3 inches deep in shade, half shade or in full sun .. \$0.70 \$5.00 \$45.00

***Campanulata Blue.** Porcelain blue, candelabra-shaped bells, blooming with the May-flowering Tulips. Plant 4 inches deep. .60 4.00 35.00

***Campanulata rosea.** This is a soft lilac-rose form of this type. .70 5.50 50.00

***Campanulata White.** The pure white form60 4.00 35.00

***Nutans.** The True English Blue Bell. Shepherd's crook-shaped flowers; showy; vigorous; effective planted with May-flowering Tulips. Plant four inches deep in shady or sunny situations. .70 5.00 45.00

Bifolia. Dwarf, rich blue flowers, which bloom with the Winter Aconite in March. Excellent for clumps, edgings and rock work. .70 5.00 45.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Scilla Sibirica.

Tulips

A Few Words About Their History

The Tulips, originally from Persia and Asia Minor, found their way to Constantinople, where they were first seen (in 1554) by de Busbecq, ambassador of Emperor Ferdinand I at the Court of the Sultan, who sent seeds or bulbs to Europe. A few years later Conrad Gesner was the first who saw Tulips flowering there, viz.: at Augsburg (Bavaria). The renowned botanist Clusius, who met de Busbecq at Vienna distributed many bulbs of Tulips to his friends in the Netherlands. So the Tulip came to Holland where the growing of this bulb should later on become such an important part of cultivation.

In the first part of the 17th century the cultivation of Tulips developed very quickly and far quicker than one should have expected the Tulip became popular. Everybody who had a fair sized garden wanted Tulips. Remarkable it is that at that time people valued most the variegated Tulips, that is:—red, pink or purple flowers, white or yellow striped, or marbled. These variegated Tulips were obtained by propagating the sports of the ordinary kinds, which contained—as a sport—stripes, etc. The more stripes the more valuable the Tulip! It was a fine hobby, which, alas, afterwards degenerated into gambling. This foolish gambling in Tulips lasted from 1634-1637. All kinds of auctions were organized; and the enormous amount of money paid for Tulips made people invest their savings in bulbs. People of all trades: weavers, tailors, blacksmiths, etc., started bulb growing, trying to make a fortune quickly.

Capital for carrying on the bulb trade was not immediately necessary, because at the time the Tulips were sold, the bulbs were still in the ground; very often they had not even bloomed. The sale, therefore, was merely an exchange of contracts. The same purchase changed hands several times, even on a single day. That is why it was possible for the prices of the bulbs to soar as they did and that at the time of delivery a fabulous sum had to be paid. And even that was not enough; they contrived to weigh the bulbs on an assay balance, and sold them, not per piece, but per asen (28 asen equals 1 dram; 16 drams equals 1 ounce). A well developed bulb weighed 1000 asen or more. At an auction one bulb of the Tulip, "Vice Roi," was sold for 4200 guilders (\$1680.00), and one Tulip, "Admiraal Van Enckhuysen," fetched 5400 guilders (\$2160.00).

Such absurd trading led to the most serious excesses, and fortunately the States of Holland, in 1637, decided to stop this sort of thing and published their decision by giving out a proclamation. Hence, the cultivation of Tulips could be developed along normal lines, what indeed happened. After many ups and downs, the present high standard was attained, and whosoever visits in Spring the Dutch bulb nurseries must be struck by the wealth in form and color, as well as by the long flowering season.

Darwin Tulips

The Darwin Tulips were developed in the north of France, supposedly from choice varieties of Bybloem Tulips. Owing to their unusual clearness of the colors, to the substance of the petals, and to their vigorous growth, these seedlings, when they came into the hands of the prominent Dutch firms, seemed worthy of forming a new class of Tulips. In 1889 they were named in honor of Darwin, and offered for sale. They remained little known for a number of years but with renewed interest in the Tulip, which sprang up in England at the beginning of the present decade, they commenced to receive attention. In America the Darwins are now widely appreciated, and their popularity here promises to exceed the favor they have enjoyed so long in Europe.

The colors include the brilliant scarlets and crimsons, and the more somber tones of red. The shades of rose and pink, of violet, and purple are unsurpassed for their delicacy or their richness of color. There are slate blue and blue-violets which might almost be called blue, while Dumas' "Black Tulip" is very nearly realized in some of the dark maroon varieties. There are no yellows. All the bronze and buff tones are Breeders; while bright yellow and orange-scarlet must be sought among the Cottage Tulips. The Darwins may be left undisturbed for two years, but it must be kept in mind that Tulips are not long-lived in our soil and climate, but if taken care of, we have known them to last ten years. The collection offered in this catalog is made up from the best varieties offered for sale in Holland. All have been tested at Wayside Gardens and we stand behind each one of them.

The figure following the name indicates the relative time of flowering.

	10 Bulbs	100 Bulbs
*Afterglow; syn., Katherine Havemeyer. 4. Deep rosy orange, with salmon shading at edges of petals; inside deep orange with yellowish base. A showy Tulip for outdoors. Height 26 inches	\$1.00	\$7.50
Aphrodite. 3. Silvery rose-pink, white base. A beautifully shaped Tulip of great strength; flower lasting a long time. Height 34 inches.	1.85	16.00
Ariadne. 2. Brilliant rosy carmine, shaded scarlet with blue base. Large flower; great substance. Height 28 inches50	3.60
Anton Mauve. 2. Clear violet, edged light violet. Extra large flower, very attractive. Height 26 inches	1.00	7.25
*Ascanio. 3. Tall grower, rosy lilac flower; popular in English gardens because as a cut flower it is unique; plant it together with Cottage Tulip, Inglescombe Pink, and use both for table decoration75	5.75
*Baronne de la Tonnaye. 4. Bright rose, margined blush rose. Height 26 inches50	3.60
*Bartigon. 1. A very showy, shapely flower of good substance on strong stem; fiery crimson with pure white base, broadly ringed deep blue. It is splendid for forcing. Height 28 inches50	3.60
*Bleu Aimable. 4. Pale lavender, with white base, starred blue; beautiful flower of distinct shape. Height 25 inches70	5.00
Bleu Celeste. 2. Violet-blue flower of fine form. Handsome near Tulips of clear pink tones. Height 30 inches	2.60	23.75
Centenaire. 1. Rich violet-rose, with large blue base; enormous flowers. Early. One of the best forcing varieties. Height 30 inches50	3.60
City of Haarlem. 3. Intense dark scarlet, with darker bloom; large steel-blue base and white halo; wonderful flower. Height 27 inches..	1.55	13.00
*Clara Butt. 4. Clear pink, flushed salmon-rose; inside much deeper, with blue base. Beautiful out-of-doors. Height 21 inches. \$35.00 per 100050	3.60

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

	10 Bulbs	100 Bulbs
Chant de Cygne. 4. Glowing salmon-scarlet shaded soft rose. One of the finest and the largest of all existing Darwin Tulips. A beautiful novelty; very scarce. Height 26 inches\$1.10		\$8.50
*Dream. 2. Pale heliotrope, inside deep violet with blue base. Height 27 inches65		4.25
*Duchess of Hohenberg. 2. Most lovely association of gray-lilac and rosy heliotrope. A magnificent flower of perfect form, borne on a stiff stem. Makes lovely beds with white Violas. Height 29 inches 2.00		18.00
*Duke of Portland. 2. Clear claret color changing with age to bright garnet, and blue base; a long, very large flower of rich color and fine form. Height 30 inches. A very fine variety 1.10		8.50
Eclipse. 2. Self-colored glowing blood-red, with steel-blue base. A huge flower, often having an extra number of petals. Height 25 inches. 1.65		14.00
*Edmee; syn., Beauty. 4. Vivid cherry-rose, edged soft rose; the brightest color in this type. Large flower of great beauty. Height 25 inches60		4.00
*Europe. 2. Salmon-scarlet, shaded rose with white base; medium sized flower on strong stem. Height 22 inches50		3.60
*Euterpe. 2. Silvery lilac with rosy tone; dainty, coy, incurring of the edges of its outer petals. This charming variety makes a beautiful bed planted with Stachys lanata. Height 29 inches60		4.00
*Feu Brilliant. 2. A most glorious scarlet Tulip; large and beautifully shaped flower on strong stem; one of the first to bloom; highly recommended. Height 28 inches50		3.60
*Faust. 2. Dark purple-maroon with blue base; very large flower. The best of the color. Height 30 inches85		6.50
*Flamingo. 2. One of the most beautiful pink Tulips. Exquisite pure color and satin sheen. Lovely pointed flower. Beautiful in border among Camassias, Nepeta Mussini, and Bleeding Heart. Please do not confuse with a Single Early Tulip of that name. Height 28 inches .. .65		4.25
Fraulein Von Amberg. 2. Dark violet, edged tawny gray; inside dull violet-purple, with white base; open flower of peculiar flattened form. The whole flower has a brownish cast, which changes the ground color in great degree. Height 30 inches 1.10		8.50
Frans Hals. 3. Violet-blue, large flower. First class Certificate, Amsterdam. Height 25 inches70		7.25
Gretchen. (See Margaret).		
Giant. 2. Deep reddish purple, shaded dark violet with white base. Handsome flower of enormous size on long stem; sturdy habit. Height 29 inches85		6.50
*Glory of Welworth. 3. Heliotrope-lilac of a very brilliant character; large flower on stout stem. Height 24 inches75		6.00
Glow; syn., Claude Gillot. 3. Dazzling vermilion-scarlet; white base, good sized flower of distinct shape. Height 23 inches65		4.25
Harry Veitch. 2. Blood-red with brighter edge and blue base; very brilliant; medium sized flower. Height 23 inches60		4.00
Herodiade. 1. Lilac-rose, of clear color; very large flower carried on a strong stem 26 inches high. A very early-flowering variety and excellent for greenhouse forcing70		5.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

The Tulips of the Future

Dutch Hybridists are always working to improve Bulbs, and especially upon Tulips. It is more than likely that our grandchildren will not plant the varieties that are now popular and are giving us so much pleasure. New races of Tulips are developing and improvement in the existing races is going on steadily. New varieties will ultimately replace the entire list of Tulips with which you are now familiar. It probably will be years before prices are such that you will want to buy one hundred or more of these improved Tulips, but we cannot resist offering on these two pages, some of the newest varieties that have been introduced by our grower and which are acclaimed all over Europe and praised by those who have seen them. Their colors are gorgeous and the substance of these new Tulips is unsurpassed. Perhaps, you would like to try one or two of these new sorts and we, therefore, take great pleasure in offering this select list.

New Darwin Tulips

On this page are listed the finest Darwin Tulips ever introduced, and they are beyond doubt the most exquisite varieties in existence.

	Each
Avalon. Large, pure white flowers with black anthers. Tall and strong stem. A wonderfully fine flower, very useful because there are so very few white late-flowering Tulips	\$ 1.00
Capt. Lindbergh. Pure golden yellow, large flower, tall growing	7.00
Cherry Blossom. Bright cherry blossom pink; flowers are shaped like a rose-bud, delicately edged white, center bluish white. Large flowers on strong and not too tall a stem. A marvelous Darwin Tulip of great beauty	1.25
Gloria Swanson. An enormous purplish crimson flower, with darker center. We do not believe that a larger and stronger Tulip exists in this color. Strong stem and flower has great lasting qualities. This really is a giant ..	7.00
Golden Fleece. Bright golden yellow, petals are slightly tipped brown, black anthers. This is a crossing between C. T. Bouton d'Or, and D. T. La Tulipe Noire50
Kathleen Parlow. Bright silvery rose, a very delicate flower on tall, strong stem. Highly recommended	2.50
La France. A gloriously soft self colored Darwin Tulip of delicate La France pink. We have named this Tulip after the well known rose of this color. Large, well formed flower, center pure white. Stem is strong and not too tall. Anyone who admires the rose La France will admire this variety	4.00
La Tosca. Large, sulphur-yellow flower, egg-shaped with a darker yellow center. Strong growing plant; flowers are carried on a tall and strong stem; one of the very few yellow Darwin Tulips. A wonderful creation	8.00
Lavender Beauty. Lavender-blue, edged lighter blue on the outer petals. Tremendous large flower on a strong and tall stem. The largest Tulip of this color in existence80
Lilac Wonder. A color which has up to now not been known in any Tulip, the flower is porcelain-blue with a white center edged heavenly blue. Stem strong and not too tall. A wonderful novelty which will have a great future. 10.00	

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

NEW DARWIN TULIPS—Continued.

	Each
L'Innocence. A white Darwin Tulip with a short-petalled flower of great substance; anthers are grayish white. A very fine novelty and fine addition to the white Darwins	\$ 2.00
Lohengrin. Bright rosy red with pure white center, very large oval-shaped flower, tall and strong stem. Certainly one of the loveliest flowers lately introduced. Highly recommended	3.00
Marble Queen. Of purest marble whiteness, when the flower ages it becomes slightly cream-white. Flowers are very substantial, large and are carried on stiff stems. A 1927 introduction. Highly recommended	6.00
Mermaid. Delicate flesh pink with white center; tremendous flower of oval shape, strong and tall stem. This novelty is among the first to bloom and has great lasting qualities. A 1927 introduction. Height 28 inches	6.00
Mount Everest. A pure white Darwin Tulip of great substance; anthers black. Large flower on a strong stem of glistening whiteness	1.20
Mrs. Grullemans. The purest white Darwin Tulip introduced. This is an improvement on the white Zwanenburg, also offered in this list. Flowers are large, of great substance, with pure white center and light sulphur-yellow anthers, on heavy, strong stem. Height 28 inches. The purity of its white is equal to that of the Easter Lily	25.00
Princess Mary. Brilliant pink, tremendous flower of great substance, very attractive when forced in pots. This will take the place of many other pink Tulips. One of the largest and best in this color. Height 34 inches	1.00
Proserpine. A color which is very much like the Single Early Tulip of this name. Long flower on a tall stem. The flower is inclined to be lily-shaped, is a beautiful exhibition variety and a lovely novelty60
Rose Glory. A glorious dark pink Tulip, large flower, center pure white. This is one of the finest Tulips lately introduced. Highly recommended	2.00
Tiara. Purplish wine-red, a very peculiar color. This is the only Darwin Tulip in this color we know. Height 28 inches40
Veilchenblau. Lovely violet-blue, edged lighter, interior slightly darker. Enormous flower on tall, stiff stem. Is among the first to bloom and the last to fade. Highly recommended. Height 30 inches40
Wayside Gardens. A lovely bright pink Tulip of tremendous size, slightly edged lighter pink. Very large and well formed flower on tall, strong stem. The very best of all pink Darwin Tulips. The foreign introducer complimented us by calling this Tulip after our nursery. We have seen it and it is beautiful80
White Glory. Pure white; a very beautiful Tulip. Large flower on tall and strong stem. Anthers are black	1.00
White City. A pure white Darwin of great beauty; very large flower. Anthers are black80
Yellow Giant. A pure yellow Tulip of great beauty and substance; large flower with black anthers. Tall and strong stem. The only yellow Darwin Tulip in existence to date	3.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

A Popular Assortment of Tulips

By special arrangement with our European grower, we are able to offer this splendid collection of the popular Darwin, Breeder and Cottage Tulips at a very special price. The bulbs are the choicest obtainable, fully guaranteed, especially selected, and cover a complete and harmonious range of colors.

Below is a list of the varieties selected for this collection:

Darwin Tulips

*Baronne de la Tonnaye
*Bartigon
*Clara Butt
*Dream
*Euterpe
*Madame Krelage

*Pride of Haarlem
*Rev. Ewbank
*Zulu

Cottage Tulips

*John Ruskin
*Inglescombe Yellow
*Ellen Willmott
*Moonlight
*Picotee

Breeder Tulips

*Bronze Queen
*Panorama
*Cardinal Manning

The collections are made up of 100, 200, 500 and 1000 bulbs. The unusually low price is as follows:

100 bulbs in 20 varieties—all labeled and packed separately.....	\$ 4.00
* 200 bulbs in 20 varieties—all labeled and packed separately—10 bulbs of a variety for.....	7.60
* 500 bulbs in 20 varieties—all labeled and packed separately—25 bulbs of a variety for	18.20
*1000 bulbs in 20 varieties—all labeled and packed separately—50 bulbs of a variety for.....	35.00

The collections are not allowed to be broken at this special price. Color descriptions can be found in the alphabetical lists of Tulips.

Darwin Tulip, Rosa Bella.

Darwin Tulip, Frans Hals.

Darwin Tulip, Glow.

Darwin Tulip, La Fiancee.

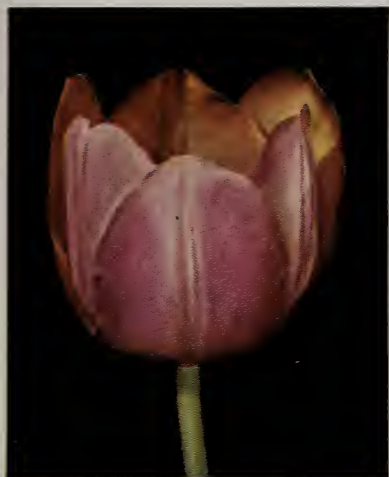

Breeder Tulips

The Breeder Tulips have been favorites in Holland for centuries, but it is only within recent years that they have become known and appreciated in America, and now they bid fair to rival the Darwin Tulips in popularity.

Their majestic size and remarkable colors place them distinctly in a class by themselves. Every lover of the more somber shades cannot fail to revel in the rich and artistic blendings of purple and old gold, bronze and terra cotta, brown and violet, and buff and maroon found among the Breeders. They are late to bloom but surpass in size and vigor the Darwins, although lacking the color brilliancy of the latter. The flowers are, many of them, sweet scented, and all splendid for cutting, as they retain for a long time their form and color.

	10 Bulbs	100 Bulbs
* Abd-el-Kader. 2. Dark copper-bronze, lighter border; very beautiful ..	\$1.15	\$9.00
* Apricot. 1. Dull, bronzy buff, shaded ruddy apricot above base	1.00	7.50
Alcida. 2. Light bronze, edged golden yellow, which, with age, becomes soft primrose-yellow; a medium sized flower of clear tone, with fine green base. Height 25 inches75	6.00
Bacchus. 2. Large, long flower on a graceful stem; dark violet-blue, with darker bloom on outside of petals, inside violet-blue, white base. The bluest of all Tulips. Height 33 inches	1.15	9.00
Bernadotte. Lilac shaded blue and bronze, edged darker bronze; very large flower	Each, 50c.	
* Bronze Queen. 1. Large, strong flower, stout stem; fine form; purplish fawn, interior buff-yellow, bright lemon-chrome base; filaments olive above, yellow below. A great favorite. Height 28 inches50	3.60
* Cardinal Manning. 1. Very large, egg-shaped flower; bishop's purple, flushed rosy bronze, changing to an almost pure orange at the extreme edges of the petals; the base is tinged yellow; filaments blue at apex. Height 34 inches70	5.50
Cherbourg. 2. Beautiful, large, egg-shaped flower; golden feathered and streaked purple-brown; base slightly stained. We have only a few bulbs of this variety. Those who like to see all the new Tulips should include a few bulbs of this in their order	Each, \$2.00.	
Copernicus. 2. Dark coppery bronze, flushed old rose, interior warm brown with yellow base. A splendid large flower. Height 27 inches ..	1.15	9.00
* Coridion. 2. Clear yellow, overlaid with broad stripe of lilac through center of petals. A Tulip of rare form and beauty. Height 28 inches.	1.85	16.00
Creation. Without question the finest orange and bronze Breeder ever introduced. When in full bloom flower becomes bright orange with a delicate shade of bronze. A glorious color when the sun shines on it. Large flower on tall and strong stem	Each, \$2.00.	
Duke of Edinburgh. 2. Enormous, well shaped flowers on stiff stem; one of the giants of this family; beautiful deep violet with large, white base. Height 33 inches. We have exceptionally strong stock of this variety and can offer this now at a very special price	4.00	35.00
* Dom Pedro. 2. Coffee-brown and maroon, shaded with old gold. It is the outstanding Breeder Tulip in this color. Robust in habit and long lasting, making it the best of the bronzy brown varieties	1.20	9.50
Garibaldi. 3. Base and center of petals terra cotta with broad edge of golden bronze. Exquisite coloring; strong growth; one of the choicest.	4.00	35.00
* Golden Bronze; syn., Toison d'Or. 3. Light brownish yellow, with faint flush of heliotrope outside; deep mahogany-brown within, shading to golden brown at tip of petals, yellow base. The general effect at a distance is a bright yellow-brown. Height 24 inches70	5.50
* Godet Parfait. 3. Bright violet; striking color; extra large flowers which keep wonderfully	1.10	8.50

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Breeder Tulip, Bronze Queen.

Breeder Tulip, Garibaldi.

Breeder Tulip, Plutarchus.

Breeder Tulip, Coridion.

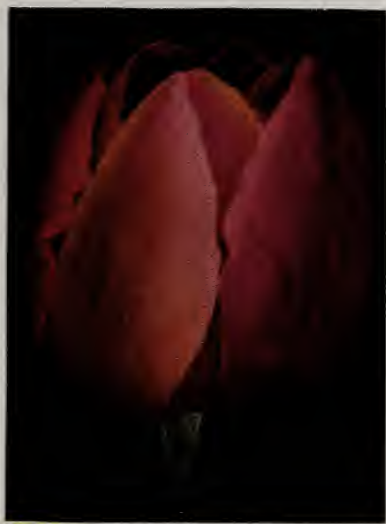

BREEDER TULIPS—Continued.

	10 Bulbs	100 Bulbs
Golden Buff. A tremendously large flower on a tall and stiff stem, dull golden buff, center greenish yellow. A new color among the Breeders. Highly recommended. Height 32 inches Each, \$3.00.		
Goldfinch. 3. Golden bronze suffused with deep lilac through center of petals. Inside deep bronze with lighter edge. Base yellow. Pointed flowers on stately stem. Height 29 inches	\$1.65	\$14.00
Heloise. A beautiful combination of deep brown and old rose. Inside deep brown edged golden bronze, base yellow. Large flowers with reflexing petals. A most exquisite variety. Height 28 inches	1.65	14.00
Indian Chief. Reddish mahogany flushed purple. A huge flower of great substance and most artistic shape; very tall Each, 80c..	8.00	75.00
*Jaune d'Oeuf. Well formed, large flower on tall stem; bright, deep lemon-chrome, with a slight flush of pale purple on the outer segments, large, pale green base; filaments greenish. Height 28 inches.	.75	6.00
James Watt. Purple, flushed bronze; inside dark mahogany, with purple base; very large, globular flower. The most exquisite of all Breeders. Extra fine for any outdoor situation. Height 26 inches	1.85	16.00
La Turquoise. Large flower of exquisite form on a strong, straight stem; of great substance, keeping for a long time. A fine light brick-red, with broad edge of deep yellow	1.55	13.00
La Singuliere. Silvery white, margined dark maroon-crimson	1.30	10.50
*Louis XIV. Rich dark purple, shaded steel-blue, heavily flushed bronze, edged golden brown; enormous size and stately bearing. The best Breeder Tulip in commerce today. A great favorite with everyone for border planting or as a cut flower it is unsurpassed. We have greatly reduced the price of this variety so all can buy it in quantity.	1.10	8.50
*Lucifer. Bright terra cotta-orange; enormous flowers. One of the newer varieties of great brilliance. An exquisite flower for the border as well as for cutting. Height 24 inches	1.75	15.00
Mabel. Clear rosy white, pure white base, a most beautiful Tulip when forced in March. Highly recommended. Height 28 inches	1.25	10.00
Madame Lethierry. Well formed, fine flower of a deep rose-pink, flushed with salmon at the outside margin and on the whole of the inside of each segment; the base is yellowish near the ovary, passing to a greenish black ring. Height 25 inches	1.15	9.00
Marechal Victor. A wonderful new variety. Large flower of a clear blue with brown border and yellow base. Should be in every collection. Height 30 inches	3.50	30.00
Medea. Salmon-carmine, a color that keeps well; extremely large flower, not very tall75	6.00
Mrs. Beecher Stowe. Exceedingly beautiful, well formed, large bloom of a clear blue. Height 30 inches. Only limited stock available	3.50	30.00
*Mon Tresor. Indian red, with orange tone at edge of petals; inside dull blood-red, with yellow base marked bronze; a medium sized flower; quite distinct. Height 25 inches85	6.50
Orange Perfection; syn., Marginata. Very handsome variety; the color is an apricot-orange with a distinct yellow border which makes it exceedingly effective in the garden. Limited stock. Height 28 inches.	1.45	12.00
*Panorama (Fairy). Large, goblet-shaped flower; rich chestnut-red; base and filaments chestnut-brown. Height 26 inches70	5.00
Parthenope. Large flower, lilac-rose shaded bronze edged bright orange when in full bloom. Center light blue. A 1927 introduction. Height 28 inches Each, \$2.00.		
Pink Pearl. A wonderfully effective variety offered by us in limited quantity. Beautiful flower, of fine form, lilac-pink with rosy bloom; interior rose, shaded creamy white	2.25	20.00

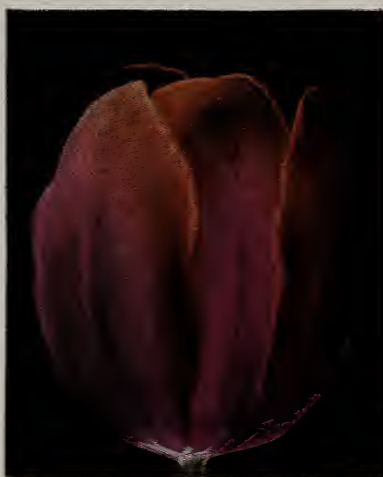

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Breeder Tulip, Cardinal Manning.

*Breeder Tulip, Fairy.
(Also called Panorama).*

Breeder Tulip, Prince Albert.

Breeder Tulip, Dom Pedro.

THE WAYSIDE GARDENS COMPANY, MENTOR, OHIO

BREEDER TULIPS—Continued.

	10 Bulbs	100 Bulbs
Purple Beech. The color resembles the foliage of the red or purple Beech tree. Large, globular flower on sturdy stem. Yellowish base streaked olive. This is one of our very best among several seedlings of this color. Height 29 inches Each, 50c.		
*Prince Albert. Glowing mahogany-brown, shaded dull bronze, green base. Splendid variety for the border. Height 30 inches\$1.15		\$9.00
*Prince of Orange. Large, very showy, well formed flower of great substance; terra cotta, edged orange-yellow, base indefinite yellow streaked with olive, filaments olive. Height 26 inches 1.30		10.50
Prince of Wales. Large, open flower, dark bronze, shaded red, interior coppery brown, with black base, starred yellow. Height 28 inches. Do not confuse this variety with Darwin Tulip of same name 1.55		13.00
Rayon d'Or. Golden bronze, edged bronzy yellow, center olive, large, well formed flower of great substance. Carried on a tall, stiff stem Each, \$2.00.		
Reve d'Or. Orange-yellow, shaded bronze with small olive and green base. Large and well formed flower on strong stem. Height 27 inches Each, \$2.00.		
Roi Soleil. A Tulip of striking beauty. A wonderful combination of dark violet-blue and shades of bronze. Fine large, well formed flower. Plant with yellow pansies. Still extremely scarce, but we are very anxious to have you try some of them, knowing that they will give you great pleasure and be a source of much pride 2.00		18.00
St. James. Lilac, edged tan, shaded light rose. Inside mahogany with golden brown edge. Very large flower on tall stem. Height 28 inches. A superb exhibition variety75		5.75
Superba. Velvet black, shaded brown 1.10		8.50
*Turenne. Dark blue, heavily flushed bronze at margin; very large flower bud 1.10		8.25
*Velvet King. Immense flower on extra strong stem. Its robust growth makes it one of the most conspicuous; fine cup-shaped form; bright, dark royal purple, small, white, sharply defined base. Magnificent planted in masses of yellow pansies, or dotted through a large planting of the pale heliotrope Darwin Tulip, Dream. Height 31 inches 1.00		7.75
Violet Queen (Socrates). Deep rosy violet with blue base, large and strong flower. Height 27 inches75		6.00
Vulcan. Beautifully shaped flower of a color unlike any other—reddish apricot, with broad margin of bright buff-yellow, interior dark apricot, edged yellow, with dark green base starred yellow. Extremely pretty when forced. Height 24 inches 1.45		12.00
William the Silent. Enormous, well formed flower, on tall, strong stem; dark purple-blue, with darker bloom on outer petals, white base. One more variety that we should like to see in the garden of every lover of Tulips. A fine novelty. Height 26 inches 3.50		30.00
*Wilberforce. Soft apricot, edged a clear tone of primrose-yellow, with broader yellow margin inside and green base; a medium sized flower of distinct color on very tall stem. Splendid for the border. Height 32 inches 1.15		9.00
*Yellow Perfection. A large flower of remarkable beauty. Light bronze-yellow, edged golden yellow, interior bronzy brown, yellow base starred green. Height 26 inches75		5.75
*Choice Mixed Breeder Tulips. Mixed bulbs, as a rule, do not appeal to the planter of bulbs because it does not make possible the blending of colors. Breeder Tulips, however, are in a class by themselves, and their colors do permit easy blending. They are in shades of bronze, golden bronze, violet, buff, maroon and terra cotta. We suggest a liberal planting for cut flowers \$40.00 per 1000.. .70		4.50

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Breeder Tulip, Wilberforce.

Breeder Tulip, Prince of Orange.

Breeder Tulip, Lucifer.

Cottage Tulips

Hybrid Cottage and May-Flowering Sorts

The Cottage Tulips come into bloom in early May, after the Early Single varieties have passed. They are hardy and robust, with long, slender, but very stiff stems. The flowers are mostly long and oval, many of them with the petals gracefully reflexed. The Cottage Tulips as a class are rich in the more delicate and artistic shades of yellow, orange, and fawn with salmon, old rose and amber. They are the best of all Tulips for cutting and they develop best when planted outdoors, including the earlier kinds.

	10 Bulbs	100 Bulbs
Alaska. A remarkable Hybrid Tulip of a clear bright yellow color and elegant form. The yellow is very even and soft. The form of the long, slender flower is interesting. The petals reflex slightly and the charm of the slender bloom is unusual. A fine Tulip to use with <i>Mertensia virginica</i> . Height 25 inches	\$2.45	\$22.00
Alcmene. Glowing rose, of bright hue, unmatched by that of any other variety; of fine rounding form, with exquisite base of cream white with iridescent blue color. Color soft, yet brilliant. Height 25 inches.	1.15	9.00
Ambrosia. A rich flower of pale terra cotta and amber, and a rosy glow throughout; a Tulip that commands attention wherever seen. A flower of great size and slender form, held on a very long, fine stem; for cutting or garden use it is superb. Plant with Faust, or Darwin of similar color. Height 28 inches	1.95	17.00
Arethusa. A large and freely opening cup of pure light chrome-yellow. This flower is much larger and more interesting and a great improvement over <i>Pallida lutea</i> . Height 25 inches	2.65	24.00
Argo. This extraordinary variety created considerable excitement at the recent International Flower Show where it was admired by all; while the flower is not large, it stands out amongst all others for its rich color. It is deep golden yellow, slightly penciled toward the top edges with orange, which deepens as the flower ages	1.55	13.00
Avis Kennicott. Large, chrome-yellow flower with striking black base and anthers. Effective grown near Iris, Midnight. Height 23 inches..	1.45	12.00
*Bouton d'Or. The finest and deepest golden yellow Tulip with black anthers. Cup-shaped flower of medium size; splendid for cutting and for mass effect; if planted amongst blue <i>Anchusa myosotidiflora</i> , or have them rise in quantity from a solid bed of white <i>Violas</i> or <i>Arabis</i> , they will make a striking picture. Height 20 inches50	3.75
Beauty of Bath. Soft rosy lilac, bordered canary-yellow. Most effective, very beautiful Tulip	1.45	12.00
Buff Beauty. A very delicate Tulip, salmon-orange, shaded buff, center orange, shaded yellow. When forced the color turns to bright orange. Height 20 inches	2.75	25.00
Carrara. This pale Tulip has created, by its beauty, a sensation at the English shows; it is round and pure white as the marble from which it has its name. A most delicate flower. Height 25 inches	2.65	24.00
Colorado. Large, glowing orange and deep yellow bloom, long and slender, and held well on its tall stem. Flushed pinkish mauve with edge of bright orange	1.65	14.00
Dido. A perfect flower, excellent in color and form, poised firmly at the top of its straight stem. Color is deep rich pink with yellow stripes. It is an unusual and magnificent Tulip. Fragrant. Height 30 inches.	1.95	17.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Scarlet Emperor.

\$1.20 per 10; \$9.50 per 100.

COTTAGE OR MAY-FLOWERING TULIPS—Continued. 10 100
Bulbs Bulbs

Dillenburg. A glorious salmon-orange shaded rose. The flowers are large and borne on strong, stiff stems. This is the finest Cottage Tulip in this color. Height 25 inches.....	Each, \$1.00..	\$8.00
Eleanor Pratt. A lovely flower. The white which runs into the band of pale lavender becomes creamy at the top and sometimes there is a faint marking of gray-blue at the base of the outer petals. One rarely sees a more interesting Tulip than this variety. 28 inches ...	1.95	17.00
*Ellen Willmott. One of the finest May-flowering Tulips. Flowers very large, beautifully shaped, soft creamy yellow, deliciously fragrant ..	.50	3.60
*Fairy Queen. Effective association of lilac and amber; beautiful silvery heliotrope shade when forced. Large flower; one of the most lovely of Cottage Tulips. Height 20 inches50	3.60
Flava. A canary-yellow Tulip of satiny texture. Leaves silvery green. Lovely planted against Persian Lilacs. The blossoms last a fortnight after other border varieties are past. Height 25 inches	1.85	16.00
*Gesneriana Lutea. Warm yellow flower. Fine for herbaceous borders among clumps of creamy Intermediate Iris. Height 24 inches50	3.60
*Gesneriana Spathulata. The finest of the Gesneriana group. Rich ruby-crimson flower with a blue base, and long, slender segments. Makes magnificent beds or is splendid massed against evergreens. Height 24 inches50	3.60
*Golden Spire. Orange-yellow; large flower, pointed, reflexing petals ..	1.00	7.25
Golden Wonder. A golden yellow, shaded brown with black anthers, turning to golden yellow when in full bloom. This is a crossing between Darwin Tulip La Tulipe Noire and the Cottage Tulip Bouton d'Or. Large flower on strong stem	1.45	12.00
*Grenadier. A large Tulip of fine form and good substance, borne on strong stem; dazzling brilliant orange, yellow base. Especially recommended for planting here and there in the borders in clumps for "high spots" in your color schemes. Height 21 inches70	4.50
Hammer Hales. Very long flower; remarkable blending of bronze, old rose, apricot and fawn color. Beautiful flower of marked distinction. Very scarce. Height 24 inches	1.00	7.25
*Inglescombe Fink. Salmon-pink, blue base; very brilliant. A great favorite in England where it is planted by the thousands, and is largely used as a cut flower. Exquisite with some light green foliage on a dinner table. This variety will stand cutting with long stem longer than any other Tulip. This habit and its delightful color indoors make it one of the best	\$35.00 per 1000..	.50 3.75
*Inglescombe Yellow. Glossy canary-yellow. Large, globular flowers. Has the true shape of the Darwin Tulip, hence is called the "Yellow Darwin."60	4.00
Ingrid. Soft creamy white, shaded yellow and rose, turning to salmon-yellow as the flower ages	Each, \$3.00.	
*John Ruskin. Salmon-rose, edged lemon-yellow; inside deep rosy lilac, with margin of yellow; large flower of fine shape. Height 16 inches.60	4.00
La Candeur; syn., Parisian White. Silvery white; as the flower ages it turns to a soft rose; medium size and globular form. Fine for borders. Height 16 inches75	6.00
*La Merveille. Orange-scarlet, flushed rose, with yellow base; very long, large flower of exquisite form, deliciously scented. A superb variety for any purpose. Height 20 inches50	3.60
Leda. A beautiful and very scarce variety. Vivid rose shading light rose towards the border	Each, \$4.00.	
Lord Carnarvon. Has a well defined band of clear bright pink on its magnificent pointed petals which makes it amazing. The Tulip has an uncommon form, and the band or striping of pink makes it a wonderful flower. Vase-like form. It is one of the outstanding new Hybrid Tulips. Height 26 inches	1.95	17.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Cottage Tulip, Ellen Willmott.

Cottage Tulip, Gesneriana Spathulata.

Cottage Tulip, Gesneriana Lutea.

Cottage Tulip, Moonlight.

COTTAGE OR MAY-FLOWERING TULIPS—Continued. 10 100 Bulbs Bulbs

Mayflower. 3. The largest of all Tulips in existence; a beautiful orange-scarlet with glittering black center, outside grayish white-violet glow; when we measured one of its petals during flowering time, it measured $8\frac{1}{4}$ inches in length and $4\frac{1}{4}$ inches in width. This is a crossing between Tulipa Gesneriana Spathulata and Tulipa Tubergeniana. Awarded First Class Certificate, London, 1922. Height 24 inches Each, \$6.00.		
Marvel. Amber-yellow, with rosy lilac flush at center of petals; inside bright yellow shaded brown toward base with green star. Medium sized flower, becoming quite yellow with age. Height 25 inches	\$1.55	\$13.00
*Moonlight. The best pale yellow Tulip; a lovely color and the flower is very long and of fine oval shape. Beautiful in the border among Irises, Bleeding Heart and Nepeta Mussini. Height 25 inches70	5.00
Mount Lowe. A marvelous Tulip in size and of rich and glowing pink, striped white; a magnificent flower. Ends of petals reflex slightly. The whole flower is uncommonly arresting and fine. Height 28 inches.	3.25	30.00
Mount Tacoma. A charming peony-like Tulip, resembling a semi-double, pure white peony. The flower is the size of a small peony, and the slightly laciniated petals, both upright and reflexing, give an effect never before seen in Tulips; very fine for the border. Height 28 inches	16.00	150.00
Mrs. Kerrell. Opening salmon-rose, with age becoming rose, edged soft salmon, with blue and white base; pointed flower of open form. One of the most distinct colors among the Cottage Tulips. Height 18 inches.	1.15	9.00
*Mrs. Moon. Pure yellow, large. The best of all yellow late Tulips; sweet scented95	7.00
*Orange King. 4. Glistening deep orange, shaded rose, inside deep orange-scarlet with yellow base; sweet scented; a globular flower of great size and brilliant coloring. Most attractive for beds or borders. Height 23 inches50	3.60
*Picotee or Maiden's Blush. Long; clear white; the petals, which are pointed and elegantly reflexed, are beautifully margined and penciled on edges with bright pink50	3.60
Pride of Inglescombe. Pure white, margined carmine-rose that suffuses the flower as it ages. Large flower with reflexing petals. Highly recommended. Height 26 inches	1.65	14.00
Quaintness. Golden brown, overlaid with rose, the interior mahogany-brown, with yellow base. A remarkable color scheme to be found among the Cottage Tulips. A fine pointed flower, very charming among purple horned Pansies. Height 20 inches	2.25	20.00
Rosa Bella. 3. Exceedingly beautiful salmon-rose. One of the finest novelties which has been awarded a First Class Certificate. Height 21 inches. Will be the most popular pink when quantities of it are available and the price reduced	2.25	20.00
Scarlet Emperor. Brilliant glowing dark scarlet, center clear yellow and black anthers; a long, large flower that does well in shady places. Excellent as a cut flower	1.20	9.50
Sir Harry. Fine mauve-pink, broad base, lightly waved petals. Fine for cutting and for planting among gray-leaved plants. Height 26 inches.	.85	6.50
Summer Beauty. Rose, flaked crimson and white; large and lovely flower	1.15	9.00
*The Fawn. Pale rosy fawn, changing to cream, flushed blush rose; large, egg-shaped flower of exquisite beauty on graceful stem. A gem among late Tulips. Height 20 inches60	4.00
The Lizard. Deep blood-red, with purple bloom, striped and feathered yellow and white; most unusual markings. Height 24 inches	1.15	9.00
The President. Pure orange; a delicate Tulip with incurved petals, may be used in the rock garden50	4.50

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Picotee.

John Ruskin (upper right).

La Merveille (lower right).

These three favorite Cottage Tulips are noted for their long life and unusual quality as cut flowers. Plant them in rows in your vegetable garden or any other spot where they may be left in the ground undisturbed for ten years or more. They will give you from year to year a greater abundance of flowers.

Picotee—\$3.60 per 100. La Merveille—\$3.60 per 100. John Ruskin—\$4.00 per 100.

COTTAGE OR MAY-FLOWERING TULIPS—Continued. 10 100
Bulbs Bulbs

Twilight. A soft-toned violet Tulip with a white base and midrib. Plant among light yellow Iris and Iberis sempervirens. Height 23 inches..	\$2.50	\$22.50
Union Jack; syn., Distinction. 1. Light violet, feathered purple, with a few markings of white; blue base; large flower. A very striking variety for borders or late forcing. Height 20 inches	1.00	7.50
Viridiflora. Large, well formed, wide-open flower with pointed petals of a soft pale green edged with creamy yellow. A charming variety of extraordinary coloring. Very nice to cut with yellow or pink Tulips. Height 20 inches	1.10	8.50
*Vitellina. Sweet-scented creamy flower of large size; has fragrance like that of the orange. Looks well planted with some clear pink variety. Forces well. Height 20 inches75	6.00
Walter T. Ware. 4. Deep golden yellow, the deepest and richest color among late Tulips; broad, globular flowers, reflexing at the top. A variety remarkable for its lasting qualities and color. Height 18 inches.	1.10	8.50
White Cross. A strikingly beautiful Tulip, large, pure white flowers of which the inner petals stand erect; outer petals are recurved. Highly recommended	Each, \$7.00.	
White Duchess. A pure white Cottage Tulip of great beauty. Petals undulated, very beautiful	Each, \$8.00.	
Zomerschoon. Salmon-rose, flaked creamy white; said to be the most beautiful Tulip in existence. Very scarce	3.25	30.00
*Special Mixture of Late Single Tulips	\$30.00 per 1000..	.50 3.60

Bizarre and Bybloem Tulips

OLD DUTCH TULIPS

These flower about the same time as the Darwins. They are not quite so tall nor so large and show off to best advantage planted by themselves or with the Rembrandt Tulips. We offer the finer varieties only.

BIZARRES

	10 Bulbs	100 Bulbs
Black Boy. Fine, medium sized flower, with dark brown penciling on golden yellow ground. Height 21 inches	\$1.00	\$ 7.50
Bonaparte. Light bronze, flamed yellow and mahogany. Height 21 inches	1.30	10.50
Gellert. Large, well formed golden yellow flowers, flushed and flecked a deep mahogany; very beautiful. Height 23 inches	2.00	18.00
Le Duel. Very beautiful, large flower of a clear yellow, feathered dark coffee-brown. Height 20 inches	1.55	13.00

ROSE BYBLOEMEN

Admiral Van Kingsbergen. A large, beautiful flower on strong stem; pure white pencilings on a bright crimson field. Height 23 inches ...	2.00	18.00
Blanc de Lait. Very fine flower; pure white with delicate pink markings; very distinct. Height 23 inches	2.30	22.50
Ponceau Transparent. Attractively marked pure white with flames of pale rose. Height 21 inches	1.65	14.00
Perle Schaaap. One of the most beautiful; clear rose, flamed white. Height 23 inches	2.00	18.00
Reine Nathalie. Good sized flower; rose ground, feathered white. Height 21 inches	2.00	18.00

Frins Hendrik. Extremely beautiful, though small flower; creamy white ground, with violet stripe through the center of each petal. Height 24 inches	7.00	60.00
Tableau de Rubens. A beautifully colored, good sized flower, showing a field of clear violet with a deep brown edge. Height 23 inches ...	2.00	18.00
*Bizarre and Bybloem Tulips Mixed. In fine mixed varieties, selected by us	1.10	8.25

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

**Cottage Tulips, Inglescombe Pink.*

One of the best pink Cottage Tulips and a great favorite in England, where it is planted by the thousands in the hardy border and in the garden, especially for cutting, because as a cut flower it is unsurpassed.

50c per 10.

\$3.75 per 100.

\$35.00 per 1000.

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Bunch-Flowered Tulips

A new type producing many flowers on a stem; very unusual and handsome.

	10 Bulbs	100 Bulbs
* Monsieur Mottet. The color of this Tulip is ivory-white, and instead of producing one flower on a stem as other Tulips do, it carries from four to six blossoms, which are in bloom all at the same time, on a stem about 18 inches tall. The result is a unique cut flower and also an excellent garden variety. We would like to see it included in every garden collection	\$1.15	\$9.00

Rembrandt Tulips

When the coloring matter of a "self color" has become split up into stripes and blotches, that particular flower is called "broken" or "rectified." When the Darwin Tulips "break" into these variations, they are called "Rembrandt" Tulips. They are very decorative but should be planted by themselves. They require the same cultural treatment as the other May-flowering Tulips, blooming during the month of May in our latitude, and about a month earlier in far southern sections.

	10 Bulbs	100 Bulbs
* Finest Mixed Rembrandt Tulips	\$0.75	\$6.00

Lily-Flowering Tulips

As the result of crossing the dainty pointed-petaled *Tulipa retroflexa* with a pink Darwin, we have here a new, very beautiful, and distinct race of Tulips having graceful, slightly reflexing flowers on tall, sturdy stems.

	10 Bulbs	100 Bulbs
Adonis. Long, fine shaped flower of a vivid rosy red	\$1.10	\$8.50
Artemis. Bright carmine-rose, pure white base	1.10	8.50
* Sirene. A very beautiful flower. Rich rose-pink with pale pink at the margins of segments, white base. Fine forcer. Great exhibition flower of exquisite beauty75	6.00

Parrot Tulips

We urge you to grow some of these quaintly shaped flowers particularly for house decoration. The artistic forms and colorings make them especially suitable for cut flower purposes; in the garden, if planted in borders or groups, they are not always satisfactory, as they lack the vigorous, straight stems of the other Tulips with the exception of one variety, the beautiful novelty "Fantasy" which has as straight and tall a stem as a Darwin Tulip. All Parrot Tulips are extremely effective planted in long drifts in front of evergreens.

	10 Bulbs	100 Bulbs
* Admiral de Constantinople. Deep scarlet, streaked with yellow	\$0.70	\$4.50
* Cramoisi Brilliant. Rich blood-crimson with blackish markings; very large and handsome70	4.50
Fantasy. The only Parrot Tulip with a straight, strong stem. This is a "sport" from the well known Darwin Tulip variety, Clara Butt, with the same habits in every way as to color, height, strength of stem, and time of flowering. The flowers are of quaint and beautiful form, the petals being lacinated, having curious excrescences on the outside. We have only a limited supply of this fine novelty which we will offer if ordered with other Tulips at 75c each.		
* Lutea Major. Yellow, lightly suffused scarlet; very large70	4.50
* Perfecta. Golden yellow, blotched deep scarlet70	4.50
* Finest Mixed Parrot Tulips50	3.60

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Botanical Tulips and Wild Species

For the Rock Garden and Hardy Plant Border.

The general characteristics of the various species, all of which are natives of Asia Minor and Central Asia, are bright colors and recurved petals. These Tulips do not always feel happy in their new surroundings and after two, or possibly three, seasons they will disappear. With care and the provision of suitable quarters they will flower quite satisfactorily. They feel best contented in rock gardens and borders.

	10 Bulbs	100 Bulbs
Australis (Celsiana). Yellow, shaded brown	\$1.65	\$14.00
*Clusiana . Outer petals bright cherry-red, inner petals creamy white, with violet base; small flower, but very distinct. It should be planted in light soil 6 or 9 inches deep, in the rock garden or among stones in the front of the herbaceous border. A warm and sheltered situation should be chosen, where it will prove to be a gem among early flowers. Known commonly as "The Lady Tulip." Flowering season late April. Height 8 inches75	6.00
Cornuta Stenopetala . Beautifully formed flower, lacinated like a Parrot Tulip, but held upright on tall, stiff stem. Very interesting and curious in a collection. Color combination scarlet and gold	1.65	14.00
Dasystemon . A very showy species, fine combination of yellow and white, producing several flowers on a stem. Height 3 inches	7.75	75.00
Eichleri . A grand Tulip from Turkestan; immense crimson-scarlet flowers with glistening black center marked with gold. Height 11 inches.	1.65	14.00
*Florentina Odorata . Deliciously fragrant, butter-yellow blossoms, often two to a stem, with bronze exteriors, carried on slender, arching stem. A charming species that increases rapidly when once established. Interplant with Grape Hyacinths. Height 18 inches	1.45	12.00
Greigi Aurea . Brilliant orange-scarlet, with deep yellow goblet-shaped flower, pointed, slightly reflexing petals and broad, thick leaves flushed with purple. Flowers in late April and May and is a gorgeous Tulip. Wants a hot, dry situation. While a wonderful Tulip when it flowers well, the bulbs will sometimes produce no bloom. Height 9 inches ...	2.25	20.00
*Kaufmanniana . Large, creamy flower, brilliantly marked with carmine, yellow center. Flower opens flat and is carried on a stem usually less than a foot in height. Blooms early in April out-of-doors, and is delightful for forcing. The bulbs should be planted six inches deep. Splendid for naturalizing in shady places; self-sows itself freely. Height 5 to 7 inches	2.25	20.00
Kaufmanniana, Brilliant . Scarlet with yellow center Each, \$3.00.		
Kaufmanniana, Gaiety . Very dwarf; white with red stripes..Each, \$3.00.		
Linifolia . Light vermilion-red; extra	Each, \$2.50.	
Marjolletie . Soft primrose, shaded carmine-red at base, small flower of very attractive color. A Tulip from Savoy, flowering about the second week in May. Height 14 inches	1.30	10.50
Oculis Solis . Crimson, with black center; large flower. Early May. Height 14 inches	1.65	14.00
Praestans . Dazzling orange-scarlet; very long, large flowers, sometimes coming four or five to a stem. A very showy Tulip from Bokhara, and superb for rockeries. Late April. Height 14 inches	5.50	40.00
*Persica . A charming dwarf for narrow borders or the rock garden. Fragrant yellow flowers, bronze on the exterior, are borne in twos or threes on a slender, curving stem. Height 3 inches	1.65	14.00
Sprengeri . Latest of all Tulips to flower. Makes a handsome group in rock garden or border. Flowers are large and bright orange-scarlet. Grows from 8 to 10 inches tall and when established self-sows freely.	1.65	14.00
Sylvestris . (See Florentina Odorata)	1.45	12.00

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Single Early Tulips

Including the Best of the Recent Introductions

They are the best fitted of all Tulips for forcing, and, if not grown too cool, some very early varieties may be had in flower by the end of December. When used for bedding, it is far better that new bulbs be secured each year, for the old bulbs will not do well the second season unless they have been allowed to mature and the foliage to die down before being removed from the beds. Even with the best care, it is uncertain whether the bulbs will again bloom successfully during a second season.

In the following list the handsomest sorts alone are represented, while many of the better known varieties are omitted because they are surpassed by the newer kinds. Detailed planting directions are included with the invoice.

	10 Bulbs	100 Bulbs
Brilliant Star. Brilliant vermilion-scarlet; early forcer of great substance	\$0.95	\$7.00
*Couleur Cardinal. Outside bronze-scarlet, inside glittering crimson; large, fine flowers. Fine for bedding and late forcing95	7.00
Cramoisi Brilliant. Brilliant scarlet. A splendid bedder and sure forcer. Very handsome50	3.60
Cullinan. Pale lemon edged pale rose. Very fine for forcing, as well as for planting outdoors. Height 13 inches	1.00	7.25
*De Wet. Beautiful deep orange, shaded golden yellow at the base of the petals. A very artistic flower and one of the finest newer sorts in cultivation. There is no other orange variety which equals it in brilliancy. It is, therefore, one of the showiest bedders, and as it forces splendidly, we recommend it for all purposes	1.85	16.00
Diana. Immense long flower of beautiful form; pure white. Especially fine for the garden. Height 14 inches50	3.60
Enchantress. A most unusual blending of salmon-orange and rare yellow tones. Brilliant, sturdy variety for outdoor planting. Is most effective with interplanting of silver-gray foliaged Phlox subulata, Lilac. Height 10 inches85	6.50
*Flamingo. White, flaked bright carmine-rose. A sport from White Hawk, having its artistic shape with its more or less crinkled petals.85	6.50
*Fred Moore. Very handsome bright orange, shaded with scarlet; splendid for forcing. Keep well watered75	5.75
Goldfinch. The true Yellow Prince. Golden yellow; sweet scented. Forces easily and early; lasts long when cut; retains color80	6.25
Joost Van Vondel, White (Lady Boreel). The largest and most intense of the white early Tulips. Splendid forcer and bedder75	6.00
Ibis. A beautiful rose colored Tulip, with white markings; resembles Flamingo, but of deeper color. A magnificent flower. Height 14 inches	1.15	9.00
*Keizerskroon. Large, scarlet flower, edged with bright yellow. A good forcer. Height 16 inches	1.15	9.00
*Lady Boreel. The finest pure white Tulip, either for beds or forcing. Flowers of beautiful form, long and slender. Height 16 inches85	6.50
*La Reine Maxima. A lightly flushed white Tulip of large size. Makes charming beds with lavender Violas. Splendid for forcing. Height 13 inches75	6.00
*Le Reve; syn., American Lac; Hobbema; Sarah Bernhardt. 4. Old rose; very large flower on a strong stem. Beautiful when grown out-of-doors. Fine for late forcing. Height 13 inches85	6.50
Max Havelaar. 2. Blood-orange, flushed salmon-rose; the general tone is close to a watermelon-red; large, well formed flower; something like La Merveille among the Cottage sorts. A fine bedding and unusually handsome forcing Tulip. Height 12 inches	1.00	7.50

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

SINGLE EARLY TULIPS—Continued.

	10 Bulbs	100 Bulbs
* Mon Tresor. Pure golden yellow; extra fine, large. One of the best and easiest forcers	\$1.15	\$9.00
* Proserpine. An enormous globular flower of carmine, shaded rose; delightfully scented. Plant among pink Forget-me-nots. One of the earliest to force. Height 14 inches	1.10	9.50
* Primrose Queen. Beautifully formed, medium sized flower. Primrose with canary-yellow border. May be used for forcing and is very handsome for outdoors70	5.50
* President Lincoln; syn., Queen of the Violets. Clear violet; large flower. Very effective when grown beside a light yellow Tulip, such as Primrose Queen. Fine for beds, and a splendid forcing sort. Height 12 inches95	7.00
* Prince of Austria. True orange shaded scarlet; very fine65	4.25
* Pink Beauty. Rosy pink, slightly feathered white; flowers of unsurpassed size and beauty	1.55	13.00
* Rising Sun. Very deep golden yellow; long, huge flower of very handsome form and habit. A sport of Duchesse de Parma, which excels all yellow Tulips for bedding or forcing. Height 16 inches	1.10	8.50
* Rose Luisante. Dark silky rose; the finest rose variety. Both a forcer and bedder85	6.50
* Vermilion Brilliant. Bright vermillion; best of its class. Forces very readily; fine bedder. Large75	6.00
Van Der Neer. Large, brilliant violet-purple flower of fine form; splendid for outdoors, interplanted with Forget-me-nots. Height 12 inches.	1.00	7.75
White Swan. One of the most graceful early Tulips, delightful for cutting. Large, oval, pure white on long stem. Charming planted with yellow Tulips near Wisteria, or with the lovely mauve-pink Tulip, Le Reve. Height 15 inches65	4.25
Yellow Queen (Moonbeam). Very large, graceful and beautiful flower of a deep primrose-yellow, shading to a deeper color at the edges. An excellent variety. Height 14 inches	1.85	16.00
White Beauty. One of the finest white bedding Tulips and delightful for window boxes and garden pots interplanted with yellow Pansies. Height 12 inches	1.55	13.00
* Superb Single Mixed. This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. This mixture is made up of hundreds of named sorts and in equal proportion of each variety60	4.00

Ground Covers Require Special Care in Selection

We have often been asked to suggest dwarf plants for planting between Tulips, in flower beds. We have noticed in several bulb catalogs information which is rather misleading and impractical because of climatic conditions. Planting ground covers between Tulips is greatly in vogue in England, because it is not necessary to cover Tulip beds in England with any straw or manure to protect them through the Winter. There are, of course, localities in the United States where this is not necessary, but in any state where the temperature drops to ten degrees above zero, it is essential that Tulips be protected in order to get the best results. Therefore, the planting of ground covers such as Arabis and Forget-me-nots, which are the two most popular plants used, is always more or less dangerous, because neither of these two plants like a very heavy covering during the Winter.

Viola cornuta, especially, makes a very fine ground cover, but if the Fall growth of these plants is damaged by a heavy covering, you will not get any blossoms at the time your Tulips are in bloom, therefore entirely defeating the purpose they were intended for. There are, of course, several varieties of plants which can be used for ground covers or which may be planted in conjunction with bulbs. Anyone interested in carrying out an idea of this sort, we suggest they write us, so that we may recommend suitable material for this purpose in their respective localities.

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

Double Early Tulips

The double varieties cannot be forced so early or readily as the singles. One of the earliest, *Salvator Rosa*, may be had by the middle of January, while all other varieties may be flowered from January to March. The flowers are large and brilliant and are effective in beds or groups. If grown in pots, do not attempt flowering before they are well rooted.

	10 Bulbs	100 Bulbs
* Boule de Neige (Purity). Pure white, large, peony-like flower; fine forcer and bedder	\$0.75	\$6.00
* Couronne d'Or . Golden yellow flushed orange; magnificent; of great beauty and size; strong stems, holding flowers upright; fine forcer..	.85	6.50
* Electra . Magnificent, enormous flower; beautiful rose, feathered violet; a handsome novelty, unexcelled for exhibition purposes	1.30	10.50
* El Toreador . Striking orange-scarlet Tulip, edged with yellow. Makes a splendid bed and forces well. Height 12 inches	1.30	10.50
Golden King . A beautiful full variety in two tones of yellow. Lovely for cutting and for massing in the borders against early white-flowering shrubs. Height 13 inches	1.15	9.00
* Mr. Van Der Hoef . A yellow sport of Murillo with all its superb qualities. One of the very finest of the primrose-yellow, double Tulips. A very lovely flower. Height 13 inches	1.10	8.25
* Murillo . Delicate blush pink. A very fine flower with a lovely color. An old variety but one of the handsomest; forces very easily70	5.00
* Peach Blossom . Large, very double, bright pink flowers, flushed white. This magnificent variety created a sensation when first exhibited at the International Flower Show. It is most effective for indoor decoration and lasts a long time cut or in pots. Height 11 inches ...	1.10	8.50
* Safrano (Tea Rose). Of a pleasing saffron-yellow as the old tea rose.70	5.25
Salvator Rosa . Dark pink; fine for forcing and outdoors75	6.00
Vnurbaak . Bright scarlet; splendid bedder; large, well shaped flowers.	1.10	8.50
* Double Mixed . This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. Made up of the best named sorts, and in equal proportion of each variety65	4.25

Double Late-Flowering Tulip

	10 Bulbs	100 Bulbs
Bleu Celeste . Large, violet-purple Tulip, flowering later than other double sorts. It is very fine for indoor decoration and for the garden. Height 16 inches	\$1.00	\$7.75

Planting Table for Plants and Bulbs

PLANTING. The table below shows the number of plants or bulbs required to fill a circular bed of the dimensions given. In planting begin at outside row—where 6 inches apart, 3 inches from edge of bed; where 12 inches apart, 6 inches from edge of bed. It is customary among professionals in planting a bed to set the plants or bulbs somewhat closer together in the two outer rows, giving more space between each plant or bulb toward the center of the bed.

Diameter of bed	6 in. apart	12 in. apart	18 in. apart	Diameter of bed	6 in. apart	12 in. apart	18 in. apart
3 feet	28	7		12 feet	452	113	50
4 feet	48	12	6	13 feet	528	132	59
5 feet	80	20	8	14 feet	612	153	68
6 feet	112	28	13	15 feet	704	176	78
7 feet	152	38	17	16 feet	804	201	89
8 feet	200	50	23	17 feet	904	226	100
9 feet	256	64	28	18 feet	1016	254	113
10 feet	320	80	36	19 feet	1132	283	126
11 feet	380	95	42	20 feet	1256	314	139

A square bed will take about the same number of plants. For an oval bed, add length and breadth and divide by two. For example, an oval 9 feet long by 7 feet wide will require the same number of plants as a circular bed 8 feet in diameter.

No other varieties except those preceded by a star (*) are carried in stock in the Autumn.

*Double Early Tulips, Peach Blossom.
Grown in Dutch Peat.*

\$1.10 per 10; \$8.50 per 100.

Special Offer of Peonies and Iris

Good Until September 1st

A real estate development compels us to remove from one of our nursery fields a large planting of Iris and Peonies. This extra amount of stock must be disposed of before September 1st. In order to sell it **QUICKLY** and **COMPLETELY**, we are offering these plants at **less than half** of what you have been paying. All plants are guaranteed true to name and to be of the finest quality. In other words, they are of the same vigorous and strong clean type that has made Wayside Gardens a byword for quality plants.

Special Offer of Peonies

	Each	Doz.
Albatre. Milk-white center, petals tinged lilac. Large, compact, rose type bloom; strong, vigorous grower and free bloomer. Midseason..	\$.035	\$3.50
Albert Crousse. Very fresh salmon-pink, delicate color. Large, compact bomb shape; fragrant; erect; medium height. Late35	3.50
Couronne d'Or. White with yellow tints arising from a few stamens showing amidst the petals. Center petals tipped with carmine. Large, rather full flower of superb form. Strong grower and very free bloomer. Late35	3.50
Duchesse de Nemours. Guard petals white, center lemon-yellow, cup-shaped; at first it develops into a large bloom, gradually fading to white; fragrant; strong grower and free bloomer30	3.00
Eduis Superba. Dark pink, even color; large, loose, flat crown when fully open. Very fragrant; upright growth; early bloomer. One of the best Peonies35	3.50
Felix Crousse. Very brilliant red. Medium to large, globular, typical bomb shape; fragrant; strong growth. Midseason50	5.00
Festiva Maxima. Paper-white, crimson markings in center. Very large, full, rose type; very tall, strong growth. Early30	3.00
Gismonda. Rose type; very late. Here we come to a Peony that has been overlooked, or, as we might say, "lost in the shuffle." Large, globular flowers produced in lavish profusion. Color lively flesh-pink with delicate rose center; very fragrant. The habit leaves nothing to be desired; strong and upright. It is the very latest pink Peony to bloom that we know of, and particularly valuable for that reason50	5.00
Mademoiselle Leonie Calot (Syn., Monsieur Charles Leveque). Rose type; late midseason. One of the grandest of Peonies; tall grower, and is such a free bloomer that it completely hides the plant; the coloring is so refined as to instantly arrest attention, being a delicate rose-white with soft lilac-pink center, and numerous dots of faint heliotrope-pink35	3.50

	Each	Doz.
Madame Ducl. Large, globular, typical bomb. Light mauve-rose, with silvery reflex. Fragrant. Strong grower, medium height; very free..	\$0.35	\$3.50
Mme. Emile Galle. Very soft pink, changing to milk-white in center. Very large, compact, flat rose type; tall, strong, fragrant. Late35	3.50
Marguerite Gerard. Very pale salmon-pink, fading to almost white. Large, compact, rose type; very strong growth. Late35	3.50
Modeste Guerin. Large, compact, typical bomb. Uniform solferino-red. Fragrance XX. Medium height; extra strong; free bloomer. Mid-season. Extra good variety35	3.50
Modele de Perfection. Rose type; late. Enormous, perfectly compact, double flower of pronounced pyramidal shape; very distinct in this respect, and was well named Model of Perfection; guard and collar light violet-rose with shades of flesh-pink, marbled and veined with bright rose, silver tipped, deepening in the center; profuse bloomer. Not one of the newest Peonies, but one of the best and very scarce. Florists visit our fields in June, pick Model of Perfection as the handsomest flower in the field. The late Mr. John M. Good says: "Give him Modele de Perfection to start with and he has the foundation laid for the best Peony collection in the world." There is no prettier Peony grown40	4.00
Mons. Jules Elie. The peerless pure pink. Broad, reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence50	5.00
Rubra Superba. Deep carmine-crimson. Large, fragrant, rose type; medium height. Very late45	4.50

Iris Germanica

Special Offer Good Until Sept. 1st

	Three	12	100
Caprice. S. rosy red; F. deeper rosy red. Large and handsome. 24 inches	\$0.45	\$1.10	\$ 6.00
Cherubin. This may be described as a pale edition of Her Majesty. The standards are very pale lilac, the falls are pale lilac thinly veined with purple45	1.10	6.00
Fairy. White, delicately bordered and suffused pale blue. The tallest standard variety giving a white effect50	1.25	8.00
Helge. Lemon-yellow with pearl shading. Huge flower45	1.10	6.00
Isoline. Round standards of pale pinkish buff, strongly flushed mauve; the sharply reflexed falls are Chinese violet with russet tints at the sides65	1.75	12.00
Juniata. A stately plant with gracefully carried mauve to magenta violet blossoms45	1.10	6.00
King of Iris. S. clear lemon-yellow; F. rich maroon, bordered yellow. Brilliant colors. Large flowers65	1.75	12.00

	Three	12	100
Leonidas. Standards clear mauve; falls rosy mauve. Big, of fine form, handsome	\$0.45	\$1.10	\$6.00
Mandaliscae. Rich lavender-purple, tall, large and handsome; very early45	1.10	6.00
Madame Chereau. White, elegantly frilled with a wide border of clear blue45	1.10	6.00
Monsignor. It possesses a distinctive and pleasing shape, rich coloring and a dark outline to the segments for emphasis. Standards violet; falls heavily veined purple, leaving a border of the violet; late to flower50	1.25	8.00
Mrs. Alan Gray. A delicate lavender-pink that appears pinker in the shadow, a variety of rather early bloom45	1.10	6.00
Midnight. A rich, deep purple, the finest in this color; a fine cut flower45	1.10	6.00
Nibelungen. S. fawn and yellow; F. violet-purple on bronze. Very large flower; strong, vigorous grower50	1.25	8.00
Nuee d'Orange (Syn., Storm Cloud). S. slaty gray; F. bronze and purple. Large flowers45	1.10	6.00
Oriflamme. S. light blue; F. rich violet-purple. Immense, handsome flowers50	1.25	8.00
Parisiana. S. white ground, dotted and shaded lilac-purple; F. white, frilled at the edge with lilac. Large flowers45	1.10	6.00
Prosper Langier. S. light bronze-red; F. velvety ruby-purple, with white beard yellow tipped. Very handsome65	1.75	12.00
Princess Victoria Louise. S. sulphur-yellow; F. rich plum, bordered cream45	1.10	6.00
Tamerlan. S. broadly rounded and somewhat waved, lavender-violet. Very large flowers45	1.10	6.00
Walhalla. S. and F. blue and purple. Strong grower and free bloomer45	1.10	6.00

All Peonies and Iris should be ordered now. Orders will be accepted until sold out. No orders booked at these prices after September 1st. Shipment will be made September 15th or any later date specified.

Hardy Plant and Alpine Plant Seeds for Autumn Sowing Gathered at The Wayside Gardens

We take great pleasure in offering under this heading a fine and practical list of hardy plant and rock plant seeds, harvested at our own nursery. We know this seed to be clean, pure and fresh, and past experience has shown us that home grown seeds germinate better and are much stronger than the imported seeds. Whenever possible we use our own seeds for the production of hardy plants and rock plants; but we cannot and do not give an guarantee as to results, knowing only too well that it requires more time and patience, and much more care to raise hardy plants and rock plants than a great many people are willing to give. It is only upon request of hundreds of our customers that we have decided to offer this condensed but choice list.

Please do not ask us to supply seeds not offered in this list.

The price is 25 cents per packet, except where otherwise noted; a liberal quantity of seed is supplied in each packet.

In ordering keep this list separate from the "Correvon" list. Order by name only.

Hardy Plant and Alpine Plant Seeds—Continued

Aconitum, Newry Blue	Dianthus arenarius	Oenothera Fraseri
Aconitum napellus	Dianthus atrococcinea	Oenothera fruticosa major
Aetheonema persicum	Dianthus atrococcinea fl. pl.	Oenothera speciosa

Campanula lactiflora alba	Heuchera, Wayside Hybrids	Silene alpestris
Campanula lactiflora	Hibiscus (Mallows), Giant Red	Silene orientalis
Campanula latifolia macrantha	Hibiscus (Mallows), Giant	Silene saxifraga
Campanula latifolia macrantha alba	White	Silene Schafta
Campanula medium, Blue	Hibiscus (Mallows), Giant Pink	Stachys lanata
Campanula medium, Rose	Hibiscus (Mallows), Giant	Statice latifolia
Campanula medium, White	Mixed	Stokesia cyanea, Blue
Campanula medium calycanthema, Blue	Hyacinthus candicans	Sweet William, Newport Pink
Campanula medium calycanthema, Pink	Iberis sempervirens	Sweet William, White Giant
Campanula medium calycanthema, White	Incarvillea Delavayi	Sweet William, Red Giant
Campanula persicifolia, White	Incarvillea grandiflora	Sweet William, Holborn Glory
Campanula persicifolia, Blue	Lathyrus, Red	Sweet William, Maroon Black
Campanula persicifolia, Telham Beauty	Lathyrus, Pink	Sweet William, Giant Mixed
Campanula pyramidalis, Mixed	Lathyrus, White	Teucrium chamaedrys
Campanula rotundifolia	Lathyrus, Mixed	Thalictrum adiantifolium
Campanula trachelium	Leontopodium alpinum	Thalictrum aquilegifolium
Carnation, Double White	Liatris pycnostachya	purpurea
Carnation, Double Red	Linnaria dalmatica	Thalictrum aquilegifolium
Carnation, Single and Double	Linum flavum	album
Mixed	Linum perenne	Thalictrum dipterocarpum
Catananche coerulea	Linum perenne album	Teucrium orientalis
Centaurea montana, Blue	Lupinus polyphyllus, Blue	Trollius europaeus
Cephalaria tatarica	Lupinus polyphyllus, White	Tunica saxifraga
Cerastium Boissieri	Lupinus polyphyllus, Pink	Valeriana coccinea
Cheiranthus Allioni	Lupinus polyphyllus, Mixed	Valeriana coccinea alba
Clematis integrifolia	Lupinus polyphyllus, New	Verbascum olympicum
Coreopsis grandiflora	Sweet-Scented Hybrids	Verbascum, Wayside Gardens
Coronilla varia	Lobelia cardinalis	Hybrids
Delphinium Belladonna	Lychnis chalcedonica	Veronica pinnata
Delphinium Bellamosa	Lychnis alpina	Veronica teucrium
Delphinium chinense, Blue	Lychnis Haageana	Viola Cornuta, Rose Queen
Delphinium chinense, White	Lychnis viscaria splendens	Viola Cornuta, lutea
Delphinium, English Hybrids	Lychnis viscaria splendens alba	Viola Cornuta, Purple
	Lythrum roseum superbum	Viola Cornuta, White
	Matricaria eximia, Golden Ball	Viola Cornuta, Blue
	Matricaria, Little Gem	For complete color description, etc., see the same items listed under "Hardy Plants."
	Myosotis palustris	

Hardy Plant and Alpine Plant Seed for Autumn Sowing From The Floaire Nurseries Imported to Order Only!

When, a year ago, Mr. H. Correvon of The Floaire Nurseries visited this country on a lecture tour, we had the pleasure of having Mr. Correvon with us for a short time, and arranged with him to act as his representatives for the U. S. A. and Canada, and to offer his seeds through the medium of our plant catalog.

Instead of offering his entire collection, Mr. Correvon has selected, with our aid, only such varieties as we feel reasonably sure will grow in this part of the world. We ask you kindly to mail your orders at once to our office. We will forward them to Switzerland where they will be put up individually by his own force and sent to us for redistribution. The price at which his seeds are offered includes postage, duty, and all other import charges. Delivery will be made by us immediately upon receipt from Europe.

Owing to the amount of work involved and the small profit on this type of material, Mr. Correvon requests check with order. Make checks payable to "The Wayside Gardens Co."

The price of all seeds from The Floaire Nurseries offered on pages 73 to 77 is **35c per packet.**

No Correvon seeds are carried in stock by us. Hardy plant seeds are best sown in cold frames. Sow seeds from March 1st until October 1st, transplant the following Spring.

|-----------------------------------|----------------------------|-------------------------------|
| 1 Achillea macrophylla | 42 Anemone Baldensis | 84 Armeria alpina |
| 2 Achillea moschata | 43 Anemone coronaria | 85 Armeria caespitosa |
| 3 Achillea serbica | 44 Anemone pennsylvanica | 86 Armeria maritima |
| 4 Achillea sericea | 45 Anemone fulgens | 87 Arnica montana |
| 5 Aconitum anthora | 46 Anemone Halleri | 88 Artemisia glacialis |
| 6 Aconitum lycoctonum | 47 Anemone hepatica | 89 Artemisia multellina |
| 7 Aconitum paniculatum | 48 Anemone hortensis | 90 Artemisia spicata |
| 8 Aconitum Wilsoni | 49 Anemone montana | 91 Artemisia—des Alpes |
| 9 Actaea spicata | 50 Anemone multifida | 92 Asarum europaeum |
| 10 Adenophora liliifolia | 51 Anemone narcissiflora | 93 Asarum canadense |
| 11 Adenophora Potanini | 52 Anemone nemorosa | 94 Asclepias incarnata |
| 12 Adenostyles albifrons | 53 Anemone pratensis | 95 Asparagus tenuifolius |
| 13 Adonis vernalis | 54 Anemone ranunculoides | 96 Asparagus acutifolius |
| 14 Aethionema Florariensis | 55 Anemone rivularis | 97 Asperula odorata |
| 15 Aethionema gracilis | 56 Anemone sulfurea | 98 Asphodeline lutea |
| 16 Aethionema grandiflorum | 57 Anemone vernalis | 99 Aster alpinus |
| 17 Agave virginica | 58 Antennaria dioica | 100 Aster amelloides |
| 18 Ajuga genevensis | 59 Anthemis montana | 101 Aster bessarabicus |
| 19 Ajuga reptans | 60 Anthericum ramosum | 102 Aster diplostephioides |
| 20 Alchemilla alpina | 61 Anthyllis montana | 103 Aster Porteri |
| 21 Alsine liniflora | 62 Antirrhinum asarina | 104 Astilbe Davidi |
| 22 Alsine recurva | 63 Aquilegia alba | 105 Astilbe hybrides variees |
| 23 Alyssum alpestre | 64 Aquilegia alpina | 106 Astragalus alpinus |
| 24 Alyssum halimifolium | 65 Aquilegia arctica | 107 Astragalus aristatus |
| 25 Alyssum saxatile | 66 Aquilegia californica | 108 Astragalus monspessulanus |
| 26 Alyssum saxatile var. citrinum | 67 Aquilegia canadensis | 109 Astrantia major |
| 27 Alyssum spinosum | 68 Aquilegia coerulea | 110 Astrantia minor |
| 28 Anchusa italica, Dropmore | 69 Aquilegia flabellata | 111 Atragene alpina |
| 29 Androsace carnea | 70 Aquilegia glandulosa | 112 Aubrietia croatica |
| 30 Androsace ciliata | 71 Aquilegia Haylodgensis | 113 Aubrietia deltoidea |
| 31 Androsace glacialis | 72 Aquilegia pyrenaica | 114 Aubrietia, Fire King |
| 32 Androsace helvetica | 73 Aquilegia Reuteri | 115 Aubrietia Florariensis |
| 33 Androsace lactea | 74 Aquilegia rosea | 116 Aubrietia grandiflora |
| 34 Androsace Laggeri | 75 Aquilegia Skinneri | 117 Aubrietia Kotschyi |
| 35 Androsace lanuginosa | 76 Aquilegia vulgaris | 118 Aubrietia Leichtlini |
| 36 Androsace obtusifolia | 77 Arabis albidia | 119 Aubrietia Loyd Edward |
| 37 Androsace sarmentosa | 78 Arctostaphylos Uva Ursi | 120 Aubrietia Moerheimi |
| 38 Androsace villosa | 79 Arenaria caespitosa | 121 Aubrietia, Mixed Vars. |
| 39 Androsace vitaliana | 80 Arenaria graminifolia | 122 Azalea procumbens |
| 40 Androsace mixed vars. | 81 Arenaria montana | |
| 41 Anemone alpina | 82 Arenaria tetraquetra | 123 Bellidiastrum Michelli |
| | 83 Arenaria melange | 124 Bellium bellidoeides |

 Mertensias
 Tigridea
 Cooperias
 Zephyranthes
 Watsonia
 Gloxinias
 Begonias
 Ismene
 Montbretias
 Gladioli
 Cannas

and various semi-bulbous plants, often listed in bulb catalogs issued by seedsmen, are not offered in this book, but are listed in our catalog of **HARDY PERENNIALS** and **ALPINE PLANTS**, issued in March and again in August.

We are exclusive growers of **HARDY PLANTS**, operating the largest and best stocked nursery of its kind in this country. This large acreage is entirely devoted to the production of more than 2,000 kinds of Hardy Border Plants, Rock Plants, and Alpine Plants, Ferns, Lilies, Iris, Peonies, etc.

We shall be glad to mail you our free Hardy Plant and Alpine catalog offering the above mentioned plants upon request. It is the best book of its kind published in America.

Hardwood Ashes

Unleached hardwood ashes are the best source from which may be derived the most needed fertilizer—**POTASH**. Ninety-five per cent of the gardens in the United States today need Potash badly. Phosphates and nitrates, as a rule, have been abundantly applied by most gardeners, but Potash, owing to its scarcity, has not been used where it ought to have been. We have contracted with a very large hardwood lumber company to supply us with all the hardwood ashes needed on our nursery, and we have put up a few hundred barrels so that we may be able to help our customers in securing this most valuable material. Apply it either in the Fall or Spring at the rate of one pound to ten square feet. Hardwood ashes cannot be sold in bags, and are therefore offered in barrels weighing 200 lbs. each. **We charge \$6.00 for a 200-lb. barrel.**
